

# DANIELLE REEVES

Head of Clinical Service/ Case Manager

## Professional Qualifications

- BSc(Hons) Occupational Therapy, University of Wales College of Medicine, 2004

## Professional Memberships & Developments

- Registered with the Health and Care Professions Council (HCPC)
- British Association of Brain Injury and Complex Case Management (BABICM)
- Member of the Case Management Society of the UK (CMSUK)

## Areas of expertise

- Acquired Brain Injury
- Traumatic Brain Injury
- Birth Injury
- Complex Orthopaedic Injury

## Current Experience

Danielle is an experienced Case Manager working with adults and young adults who have sustained acquired brain injuries, complex orthopaedic injuries, and birth injuries. Her caseload includes clients with significant and varied rehabilitation needs requiring coordinated, goal-driven input from multidisciplinary teams. She is skilled in identifying individual care needs and implementing tailored support plans that promote recovery, maximise independence, and address long-term requirements. Danielle ensures that rehabilitation programmes are timely, effective, and cost-efficient, with a strong focus on client-centred outcomes. Danielle has experience in clinical report writing, completing Initial Needs Assessments as well as providing ongoing update and costings reports to instructing parties. In addition to her case management work, Danielle is responsible for overseeing the clinical service at N-able Services Ltd.

## Previous Experience

Clinical Manager – Overseeing service delivery and development while maintaining a caseload of clients with catastrophic injuries. Provides clinical supervision and guidance to case managers, supporting best practice and professional development across the team.

Case Manager – Managing a diverse caseload of clients with complex needs following brain injuries, complex orthopaedic trauma, and birth injuries. Coordinating rehabilitation and care planning through close multidisciplinary collaboration. Occupational Therapist – Working in acute and community settings with a specialist focus on neurology and complex orthopaedics. Playing a key role in service development, as well as coordination and management across clinical pathways.
