Bryan's Story

Bryan Dickinson is the owner and the friendly face that you will see in the Better Mobility shop.

This is his story.

After qualifying with a BA honours degree in design, he had a 10 year career in interior design.

When his mother was diagnosed with leukaemia he helped care for her and when she passed he made a career change to work in medical sales. Bryan spent 7 years working for a company that sold specialist bed equipment, and beds that could turn patients, to social services and the NHS.

He therefore built a wealth of experience dealing with people with many different disabilities and illnesses, working along side occupational therapists with home visits and demonstrations.

In 2003 he was offered a job helping to manage four mobility shops, again building experience in this field.

In 2004 he decided to open his own mobility shop and has been trading in Clevedon ever since.

Bryan had two family members who had Motor Neurone disease and has a daughter who has had major spinal surgery.

This has helped him realise the importance of the very best quality equipment to improve the quality and independence of people's lives.

WHEELCHAIR AND SCOOTER ACCESSORIES

RAMPS ►

Standard aluminium threshold ramps are heavy, often slippery when wet and difficult to angle correctly. The lightweight, modular Secucare system is quick and easy to assemble and is suitable for use inside or outside. The anti-slip studs make it incredibly safe to use and it can be adjusted to fit a range of heights for both thresholds and small steps. The system is built to last - durable, UV resistant and maintenance free.

That said, it is also 95% recyclable to support ongoing sustainability. Maximum weight load: 850 kg/m²
