

CAPABILITY STATEMENT

**Providing REAL Equipment
Hire Solutions**

For Industrial & Government Projects

Specialised equipment hire & project management

We're an Australian-owned and operated equipment hire company with over 25 years of industry experience. With offices in Alpha, Clermont, Charters Towers, Chinchilla and Gunnedah, we offer comprehensive equipment hire services throughout regional, rural and remote Queensland.

Our speciality is providing access to trusted products from world-leading manufacturers known for quality and durability.

Streamlined service for maximum project efficiency

Our simplified service processes make hiring equipment fast and efficient, so you receive reliable, high-performing equipment when and where you need it with minimum downtime.

We provide equipment to support projects in a range of industries:

- » Tier 1 - Tier 5 mining and gas projects
- » Local Government road infrastructure
- » Industrial contractors
- » Agribusiness & farmers
- » Building & construction

The Verax HIRE Difference

Reliable & responsive : We're experienced in navigating complex compliance and contract management requirements. Our swift-response customer service systems ensure we fulfil our customers' needs promptly, minimising downtime.

Remote & rural ready : With multiple offices throughout Queensland, we're strategically positioned to provide prompt and efficient equipment hire for projects in regional, rural and remote areas.

Committed to quality : We stock equipment from leading brands and conduct regular and stringent quality checks and maintenance, ensuring safety and compliance with every product.

Equipment from leading manufacturers

We have an extensive range of equipment available including:

- » Boom lifts and scissor lifts
- » Generators and compressors
- » Lighting towers & lighting
- » Telehandlers and forklifts
- » Compaction rollers and graders
- » Earthmoving equipment
- » Message boards & traffic lights
- » Welders - diesel & electric
- » Pumps and hoses
- » Plumbing equipment
- » Pressure cleaners
- » Concrete tools & equipment
- » Chemical toilets & site storage
- » Fuel pods and trailers
- » Temporary fencing
- » Scaffold, ladders, trestles & planks
- » Specialist plant
- » Contractor & home maintenance tooling
- » Landscaping & gardening equipment

and minimise
downtime.**

Occupational Health & Safety

Our Safety Management System (SMS) includes:

- » Induction and ongoing training for all employees
- » Regular toolboxes and pre-start meetings
- » Branch safety meetings
- » Procedures, risk assessments, and SWMS available for all tasks

Safety protocols

Our robust OH&S protocols ensure site staff maintain a high level of situational awareness.

- » Zero-harm focused on best practice programs
- » Trained and experienced operators
- » Alignment with all onsite and customer safety guidelines
- » Decreased risk of work-related injuries
- » Reduced lost time
- » Meaningful contribution to project safety systems
- » A more productive and safer working environment
- » Regular senior management meetings to discuss and rectify safety & compliance issues

Sustainability & ESG

Our strategy seeks to address waste and greenhouse gas emissions as we strive to continually improve our environmental practices across our company and create an inclusive environment in which our team members feel valued, included and empowered.

Quality assurance

We continually improve processes, products and services, ensuring they consistently meet or exceed project requirements and industry standards.
