

# R3 ASCENT | TECHNICAL RACING SUIT

1.10.046 - OPENBACK  
1.10.146 - JAMMER

A high-compression race suit designed to feel secure, supportive, and race-ready.

SWIMWEAR / TECHNICAL

## HYDRODYNAMIC SPEED

Advanced woven fabric reduces drag, enhances glide, and improves efficiency in the water.

## LOCKED-IN FIT

Controlled compression stabilizes muscles, supports posture, and sustains speed across all events.

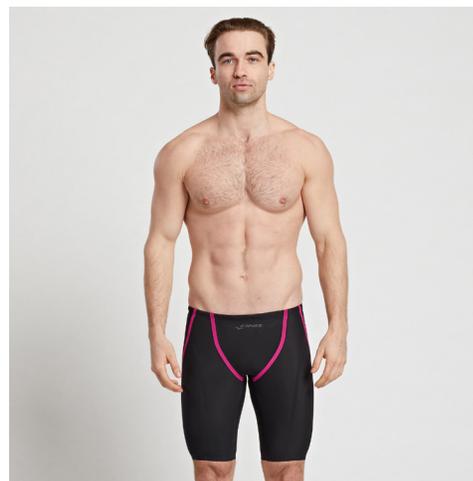

## ALIGNMENT & LIFT

Strategic construction helps position swimmers forward and up in the water, aiding bodyline and momentum.

## POWERFUL MOBILITY

Optimized stretch zones allow natural movement through hips and legs, supporting fast, powerful kicking across all strokes.

## PRODUCT DESCRIPTION

R3 Ascent is engineered to keep your body naturally lifted and streamlined in the water, helping you maintain your fastest, most efficient position. Targeted compression wraps your legs and core for a locked-in feel that supports controlled movement across all four strokes. Paired with flexible woven fabric that moves effortlessly with you, R3 Ascent delivers the speed, stability, and confidence you need on race day.
