ABERDEEN CONTEMPORARY DOOR

SPECIFICATION AND FACT SHEET

Unbeaten in every test, the Ultion euro cylinder has been accredited with the highest British Standard 3 Star Rating, is a Sold Secure Diamond approved cylinder after passing MLA tests and is approved by the Police. Secure by Design approved

Our sweet handles carries multiple coatings of brass and nickel,

ensuring it always looks great, even after being hammered with salt water for over 8000 hours. That's an incredible 30 more time than required for the flagship EN 1906:2012 corrosion

Our sweet letterbox has a wrap around design replacing traditional frame and flap design to stop the elements creeping through

Two internal skins bring additional sound and thermal insulation

Protected by 6 layers of armour

Exceeds British Corrosion standards by 30 times

NOW FITTED AS STANDARD

Duplex™

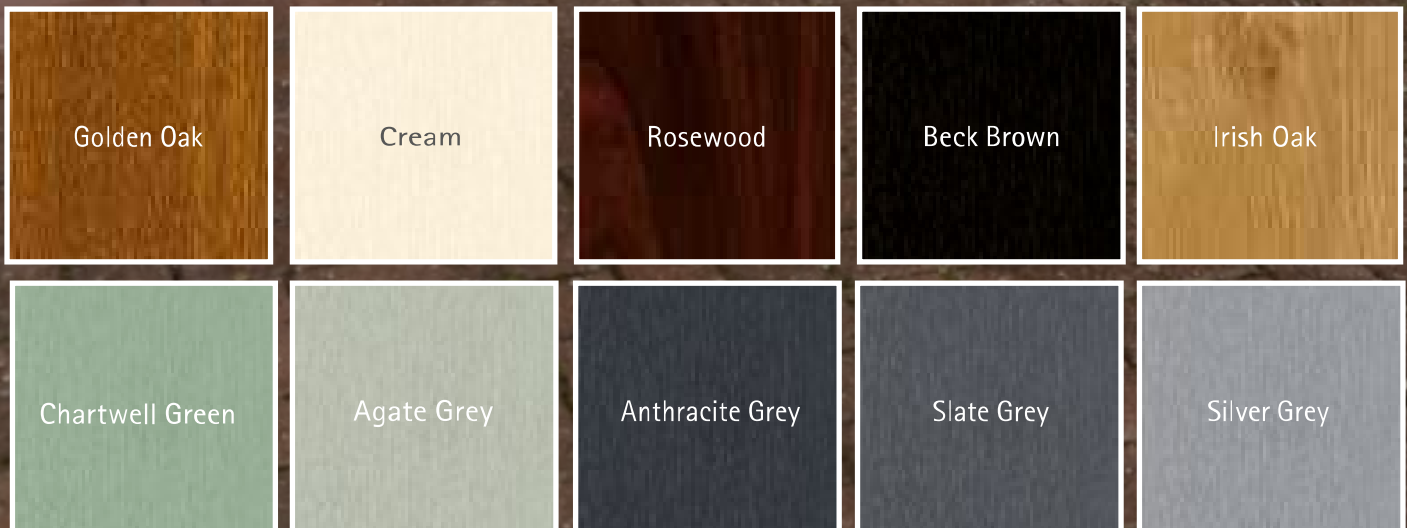

Unique pincer movement for a strong vice-like grip.

Ingenious Duplex 5 Hook 4 Roller Door Lock

SUPERIOR ENGINEERING BUILT IN

WHAT IS AN ABERDEEN DOOR ?

Our Aberdeen door range is made entirely using reinforced UPVC sections similar to a timber or aluminium door; about three years ago, we stopped selling doors with a complete slab in the opening like a composite or UPVC panel door. The Aberdeen is stronger and more complicated than other doors but performs far better than most due to its build quality and weight. Also, all the glass units are toughened with argon gas between the panes and LOW E GLASS: UV PROTECTION is applied to the inner pane to prevent heat loss. Each door has over twenty elements, making it the finest engineered door on the market. If you're looking for individuality, you have it as our owner Graeme designed the range.

Supply only prices include vat and a colour externally
