

## 2024 SSSCL – Ship Shore Safety Checklist Training Course

ISGOTT Sixth Edition

### ISGOTT Checks pre-arrival Ship/Shore Safety Checklist

Date and time:

Port and berth:

Tanker:

Terminal:

Product to be transferred:

Part 1A. Tanker: checks pre-arrival			
Item	Check	Status	Remarks
1	Pre-arrival information is exchanged (6.5, 21.2)	<input type="checkbox"/> Yes	<input type="text"/>

As you may know, in June 2020 the 6<sup>th</sup> edition of the International Safety Guide for Tankers and Terminal was published, replacing the 5<sup>th</sup> edition of 2006. In 15 years much has changed about the ship/terminal interface concerning HSEQ. Different views by experience have been developed into updated rules, guidelines and regulations world-wide.

The new Ship/Shore Safety Checklist (SSSCL) should be implemented and used from January 01, 2021 onwards. What we strongly recommend you to do is to train and instruct your staff who are responsible for the ship/shore interface about how to

use it and to understand all the questions in the context of the latest 2020 ISGOTT edition.

This new checklist consists of various parts that should be understood in relation to Part 4 on the Management of the Ship/Shore Interface focusing on *communication and information sharing*. As you can see, each question includes a referenced subject/chapter number: for example question 1. Pre-arrival information is exchanged (reference: 6.5, 21,2). Our training method consists of reading, discussing and explaining each reference.

### **Course Program for the Ship Shore Safety Checklist 2020 ISGOTT Edition 6**

#### **1 Day**

1. Testing ship/shore interface awareness, knowledge and skill by answering 10 basic questions.
2. Introduction and reading of ISGOTT Ship/Shore -Tanker/Terminal Interface:
  - a. Chapter 21 : Communications
  - b. Pre-Arrival, Pre-Berthing, Pre-Transfer Information.
  - c. Producing a correct Loading or Discharge Plan
  - d. How and when to Sign a Notice of Readiness?
3. Chapter 25 : The Ship/Shore Safety Checklist
  - a. Composition of the SSSCL
  - b. Writing a Safety Letter
  - c. Instructions for completing the SSSCL
  - d. Interactive Simulation Exercise – Shore and Ship; filling in the SSSCL during a key meeting + physical checks
4. Implementation of the 2023 Loading Master Standard Operational Procedures which was developed by TTT.

We offer you this comprehensive one (1) day SSSCL training program which can be taken online at any convenient date and time. It can also be organised at your terminal worldwide.

**Course Instructor: Arend van Campen, Tank Terminal Training**

Arend van Campen is member the Energy Institute. Arend has worked for over 40 years as a CEO, Terminal Manager, Marine Cargo Expediter and Loss Prevention Advisor around the globe. TTT has been officially recognized by the Energy Institute as a Learning Affiliate. Arend holds a Master's degree in Business Ethics & Social Responsibility and teaches that a safe, sustainable and profitable business can thrive only when people choose and act ethically and are willing to learn. He set up [www.sustenance4all.com](http://www.sustenance4all.com), a thinktank researching sustainable business design to ensure human well-being and the preservation of the environment.
