SPEECH-LANGUAGE PATHOLOGIST PRIVATE PRACTICE CHECKLIST

When contracting the services of a private clinician, there are a number of questions that you could ask the therapist. You should contact at least three therapists and compare responses to be assured that you are enlisting the services that best match your child's needs.

1. Does the clinician have experience working with your child's age group and communication disorder?
2. What kind of services are they prepared to provide? (i.e. one-on-one, home program, visit to the child's daycare for coaching, etc.)
3. What is their approach to therapy? How will you know the progress of your child?
4. Do they work with an assistant, student, volunteer?
5. What is their time availability?
6. Where is the treatment conducted?
7. What is their hourly rate? Is it negotiable based on your insurance coverage?
8. Can sessions be conducted in 30 or 45 minutes based on your child's attention span?
9. What do they charge for? phone calls
 - a. travel time
 - b. reports
 - c. meetings
10. Is the clinician willing to communicate and share information with the **First Words** clinician once service has started?

Services privés d'orthophonie

Lorsque vous cherchez à retenir les services d'un ou d'une orthophoniste travaillant en clinique privée, il y a certaines questions que vous feriez bien de poser. Il serait bon aussi que vous communiquiez avec au moins trois orthophonistes différentes afin de comparer les réponses qu'on donne à vos questions. Vous saurez ainsi de façon certaine que les services que vous aurez choisis correspondent à vos besoins.

1. La personne qui offre ses services comme thérapeute a-t-elle une certaine expérience de travail auprès des enfants qui ont des problèmes de communication et qui sont du même âge que le vôtre?
2. Quel genre de service offre-t-elle? (par ex., en tête à tête, programme à domicile, encadrement de l'enfant à la garderie, etc.)
3. Quelle est sa façon d'envisager la thérapie? Comment pourrez-vous suivre les progrès de votre enfant?
4. Travaille-t-elle avec un assistant, des étudiants ou des bénévoles?
5. Quelle est la disponibilité de ces gens sur le plan de l'horaire?
6. À quel endroit s'effectuera le traitement?
7. Quel est le tarif horaire des soins?
Ce tarif est-il négociable en fonction des prestations de votre régime d'assurance?
8. Les séances peuvent-elles se limiter à 30 ou 45 minutes, si votre enfant ne peut pas se concentrer plus longtemps?
9. Quel sont les frais exigés pour les appels téléphoniques, les déplacements, les rapports, les réunions?
10. La personne dont les services thérapeutiques auront été retenus sera-t-elle disposée à communiquer et à échanger des renseignements avec **Premiers Mots**, une fois le traitement en marche?
