## ABOUT NQ INDUSTRIAL ELECTRICS

NQ Industrial Electrics is an electrical workshop specialising in motors, welders and generators. We service and maintain all types of electrical equipment in our 1300 square meter facility.

With over 100 years of combined industry experience, we provide a complete and reliable service to the mining, engineering, sugar and shipping industries.

Our quality management procedures and sustainable practices ensure all equipment is repaired and tested to Australian Standards and Site-specific requirements while minimising our impact on the environment.
