Computer Use Policy

Wireless internet is available for some of our members. The Palermo Clubhouse and Chelsea Clubhouse have access to the school's wireless internet. All members must comply with the school policies and BGCKV's policy. Failure to comply with either policy and these rules may result in loss of computer and Internet access privileges, disciplinary action, and/or legal action.

Electronic Device Use is a Privilege, Not a Right. This includes the use of personal cell phones while at the Club.

Before a member will be allowed to use Club technology equipment or their personal device, both the member and their parent/guardian will need to read this Technology Acceptable Use policy. Under the Technology Acceptable Use policy, the following relevant principles shall apply:

Club devices shall include any and all Club-owned existing and/or emerging technologies and devices that can take photographs, play and record audio or video, input text, upload and download content and/or media and transmit or receive messages or images.

Personally owned devices shall include any and all member-owned existing and/or emerging technologies and devices that can take photographs, play and record audio or video, input text, upload and download content and/or media and transmit or receive messages or images.

Club purposes shall include program activities, career development, communication with experts and/or Club peer members, homework and Club activities. Members are expected to act responsibly and thoughtfully when using technology resources. Members bear the burden of responsibility to inquire with staff when they are unsure of the permissibility of a particular use of technology prior to engaging in its use.

Authorized use: Club devices and personally owned devices are permitted for use during approved Club times for Club purposes and in approved locations only. The Club expressly prohibits the use of Club devices or personally owned devices in restrooms and other areas where there is an expectation of privacy.

Video Games & Movies: Teen Center and older members of the Club have access to video games and movies. Video games will be rated T for Teens or under. No movie rated over PG-13 will be viewed while at the Club or at Club events.

Appropriate use: Members may not use any technology to harass, threaten, demean, humiliate, intimidate, embarrass or annoy their peers or others in their community. Any inappropriate use of a Club or personally owned device, as determined by Club staff, can lead to disciplinary action including but not limited to confiscation of the device, immediate suspension from the Club, termination of membership or other disciplinary actions determined to

be appropriate to the Club's existing disciplinary policies including, if applicable, referral to local law enforcement.

Monitoring and inspection: Boys & Girls Clubs of Kennebec Valley reserves the right to monitor, inspect, copy and review any personally owned device that is brought to the Club. Parents/guardians will be notified before such an inspection takes place and may be present, at their choice, during the inspection. Parents/guardians may refuse to allow such inspections. If so, the member may be barred from bringing personally owned devices to the Club in the future.

Loss and damage: Members are responsible for keeping devices with them at all times. Staff are not responsible for the security and condition of the member's personal device. Furthermore, the Club is not liable for the loss, damage, misuse or theft of any personally owned device brought to the Club. Any inappropriate or unauthorized use of a Club or personally owned device, as determined by Club staff, can lead to disciplinary action including but not limited to confiscation of the device, immediate suspension from the Club, termination of membership or other disciplinary actions determined to be appropriate to the Club's existing disciplinary policies, including, if applicable, referral to local law enforcement.

Members must be aware of the appropriateness of communications when using Club or personally owned devices. Inappropriate communication is prohibited in any public or private messages, as well as material posted online. Inappropriate communication includes but is not limited to the following:

- Obscene, profane, lewd, vulgar, rude, inflammatory, threatening or disrespectful language or images typed, posted or spoken by members;
- Information that could cause damage to an individual or the Club community or create the danger of disruption of the Club environment;
- Personal attacks, including prejudicial or discriminatory attacks;
- Harassment (persistently acting in a manner that distresses or annoys another person) or stalking of others;
- Knowingly or recklessly posting false or defamatory information about a person or organization; or
- Communication that promotes the destruction of property, including the acquisition or creation of weapons or other destructive devices. If a member is told to stop sending communications, that member must cease the activity immediately.

Cyberbullying

Members may not utilize any technology to harass, threaten, demean, humiliate, intimidate, embarrass or annoy their peers or others in their community. This behavior is cyberbullying, which is defined as bullying that takes place using emerging technologies and devices. Any cyberbullying that is determined to disrupt the safety and/or well-being of the Club, Club members, Club staff or community is subject to disciplinary action.

Examples of cyberbullying include, but are not limited to:

- Harassing, threatening or hurtful text messages, emails or comments on social media.
- Rumors sent by email or posted on social networking sites.
- Embarrassing pictures, videos, websites or fake profiles.

Members may not attempt to gain unauthorized access to the Club's network, or to any other computer system through the Club's network. This includes attempting to log in through another person's account or accessing another person's files. Members may not use the Club's network to engage in any illegal act, including, but not limited to, arranging for the purchase or sale of alcohol, tobacco or other drugs; engaging in criminal activity; or threatening the safety of

another person. Members may not make deliberate attempts to disrupt the computer system or destroy data by spreading computer viruses.

Monitoring and inspection: Boys & Girls Clubs of Kennebec Valley reserves the right to monitor, inspect, copy and review files stored on Club-owned devices or networks. In addition, Boys & Girls Clubs of Kennebec Valley reserves the right to inspect and/or review personally owned devices that are brought to the Club. Parents/guardians will be notified before such an inspection takes place and may be present, at their choice, during the inspection. Parents/guardians may refuse to allow such inspections but the member may be barred from bringing personally owned devices to the Club in the future.

Internet access: Personally owned devices used at the Club must access the internet via the Club's content-filtered wireless network and are not permitted to directly connect to the internet through a phone network or other content service provider. Boys & Girls Clubs of Kennebec Valley reserves the right to monitor communication and internet traffic, and to manage, open or close access to specific online websites, portals, networks or other services. Members must follow Club procedures to access the Club's internet service.

Loss and damage: Members are responsible for keeping the personal device with them at all times. Staff are not responsible for the security and/or condition of the member's personal device. Furthermore, the Club shall not be liable for the loss, damage, misuse or theft of any personally owned device brought to the Club.

Parental notification and responsibility: While the Boys & Girls Clubs of Kennebec Valley Technology Acceptable Use Policy restricts the access of inappropriate material, supervision of internet usage might not always be possible. Due to the wide range of material available on the internet, some material might not fit the particular values of members and/or their families. Because of this, it is not considered practical for Boys & Girls Clubs of Kennebec Valley to monitor and enforce a wide range of social values in student use of the internet. If parents/guardians do not want members to access information beyond the scope of the Technology Acceptable Use Policy, they should instruct members not to access such materials.

Digital citizenship: Club members shall conduct themselves online in a manner that is aligned with the Boys & Girls Clubs of Kennebec Valley Code of Conduct. The same rules and guidelines members are expected to follow offline (i.e., in the real world) shall also be followed when online. Should a member behave online in a manner that violates the Boys & Girls Clubs of Kennebec Valley Code of Conduct, that member shall face the same discipline policy and actions they would if their behavior had happened within the physical Club environment.

Club-owned-and-operated technology: Members are expected to follow the same rules and guidelines when using Club-owned technology. Club technology and systems are the property of the Club, are intended to be used for Club purposes and are to be used during approved times with appropriate supervision. Club members shall never access or use Club technology or systems without prior approval.

Digital citizenship and technology safety training: All members who wish to use a Boys & Girls Clubs device or equipment will be required to successfully complete a BGCA-provided digital citizenship and technology safety training. This training is required for all members annually.

Member and Staff/Volunteers technology responsibility: Any person hired by the Club or volunteers for the Club is prohibited from having any private or isolated meeting or communication with a member via any technological platform such as but not limited to texting, video chat and social media between only a staff member or volunteer and a single member.

No member shall be allowed to use a Club computer equipment, network, or Internet until the member and parent/guardian have signed and returned this acknowledgment to the main office.

Child & Club Safety Policy Statement

Implementing a Safety Management System: Our Layers of Safety Protection

At Boys & Girls Clubs of Kennebec Valley, safety is foundational to everything we do. We strive to create safe places where youth and staff thrive and we are committed to maintaining a safe and healthy environment at all times.

To ensure the safety of our operations and services, we are committed to a safety management system to identify, assess and mitigate risks and to continuously improve our safety performance. This requires our unyielding commitment to the following principles:

- Promoting the concept that safety is a core value and precondition to operation.
- Enabling proactive identification, assessment, and mitigation of risks associated with our activities, programs, and services.
- Fostering a positive safety culture through behavioral norms, expectations and “unwritten rules.”
- Prioritizing the safety and health of all individuals involved in our operations and affected stakeholders.
- Conducting risk assessments on a regular basis to proactively address risks and minimize the likelihood and severity of incidents.
- Complying with all applicable laws, regulations, and standards, including the Movement’s membership requirements.
- Actively encouraging the reporting of incidents, near misses and other safety concerns without fear of reprisal.
- Promoting safety awareness through open, regular communication and engagement initiatives.
- Providing comprehensive training to employees, volunteers, and other stakeholders to ensure they are equipped with the knowledge and skills necessary to perform their tasks safely.
- Allocating sufficient resources (people, processes, tools and training) to supporting this safety policy.
- Integrating safety into all aspects of our business planning and decision-making processes.
- Ensuring all employees understand that we all have a daily obligation to pursue safety, quality and compliance as described in this safety policy.

Review and Revision:

This Child & Club Safety policy will be reviewed annually to ensure its continued effectiveness and relevance. It may be revised as necessary to reflect changes in regulations, industry standards, and organizational requirements.

Early Childhood Programs (6 weeks - Preschool) – Year-Round Programming

Early Childhood Curriculums

Early childhood educators at BGCKV's Sandra M. Prescott Clubhouse use developmentally appropriate practice and consider the unique needs of all children when planning the weekly curriculum. Our infant and toddler programs use Creative Curriculum Infants, Toddlers and Twos to create a more individualized lesson plan. Most infants and toddlers develop at different paces which is why we strive to nurture everyday moments with our youngest learners. This curriculum builds daily routines and creates meaningful learning experiences.

Our two preschool programs use the Pre-K for ME curriculum. This research-based, whole child curriculum meets the requirements of Chapter 124: Public Preschool Program Standards and is developmentally appropriate for preschool children. Pre-K for ME is intended to support any preschool teacher in providing a rich, play-based, intentional curriculum that is aligned to Maine's Early Learning and Development Standards as well as the Head Start Early Learning Outcomes Framework. Pre-K for ME builds social-emotional, executive function, language, literacy, math, and vocabulary skills. In addition, students' conceptual knowledge around a variety of topics is enhanced an important component for school success.

CPR & First Aid Training

All BGCKV youth development professionals and child care workers are trained in CRP & First Aid within 90 days of the start of employment as required by Maine State Child Care Licensing.

Safety Partnerships

Locally, BGCKV has partnered with Spurwink Mental Health Services and local emergency personnel to provide our staff, members, families, and volunteers assistance if a situation arises.

Nationally, BGCA works with experts in areas of safety, security, and technology to develop plans for local Clubs. Partners include:

- National Child Safety Advisory Trask Force
- Blue Ribbon Taskforce
- Mental Health First Aid
- Crisis Text Line that included a Child Safety Hotline 1-866-607-SAFE (7233)

Fire Drills / Emergency Evacuation Plan

Monthly fire drills are conducted as well as two evacuation emergency drills annually to help members and staff practice how to transition safely out of the building in the event of an emergency. All drills are logged and kept in a designated area. The following steps must be followed when performing a drill.

1. Security company must be notified before the fire drill is conducted.
2. Alarm can be pulled, triggered in the fire panel or another alarm used to alert the members.
3. Staff shut lights off, close windows, get attendance sheets, emergency kits and shut the door as they exit their classrooms or space.
4. Staff make sure that all kids in attendance in their classrooms are cleared from the building and in the safe zone and accounted for.
5. Assigned staff members will complete a building check.
6. Once the building is cleared in the fire panel silent the alarm and put the alarm back into place.

7. Inform staff and kids that it is safe to re-enter the building.
8. Call the Security company back so they can reset the system.

If there was an actual emergency and the building needed to be evacuated parent/guardians would be informed as soon as all members, staff and anyone else inside the building are in a safe location. Each Clubhouse has a designated SAFE ZONE offsite if relocation is necessary. If any Clubhouse or site needs to relocate further away, MSAD 11 transportation would be used for transportation. Emergency information may be transmitted through the Remind App or telephone.

All fire extinguishers and emergency lights on the premises are checked monthly after the drill is complete.

Storm Days, Power Outages and State of Emergency

Child Care programs (infant through 5th Grade) will be open on storm days as much as possible. Closure will only occur if there is a power outage, treacherous road conditions, public health emergency and or the safety of members are at stake.

All closure announcements will be made through the Remind App and our Facebook pages by 6:00 a.m.

Members are obligated to pay for storm days.

If a power outage, severe storms, public health issue or other emergency occurs while during our hours of operation, the Club will remain open until parents/guardians can pick up. The Club reserves the right to close for any reason deemed an emergency.

Restroom Policy

USAGE

BGCKV is committed to providing a safe, clean environment and enforces the following restroom policy for members, staff, volunteers, and other adults. There will be a designated adult restroom and procedures to ensure adults and minors never utilize a restroom at the same time. There is a designated adult restroom at all facilities. All bathrooms regardless of the Clubhouse have single-user restroom or multi-user restrooms with single stalls that can be secured from the inside. Only one member is permitted to use the restroom at a time to prevent any one-on-one interactions.

MONITORING

All restrooms shall be regularly monitored by designated staff according to a schedule set by Club leadership. Monitoring includes walk-throughs, inspections and/or any (but not necessarily all) of the best practices outlines below:

- Implementing procedures to limit the number of children using restrooms at the same time.
- Prohibiting younger children and teens from sharing a restroom.
- Positioning staff near restroom entries to maintain auditory supervision of space. Staff observing unacceptable restroom conditions or incidents shall:
- Immediately notify the Club leadership of the incident.
- Document, in writing, restroom conduct incidents and report them to Club leadership as soon as possible in compliance with the Club's Incident Reporting Policy.

Field Trip/Public Restroom Policy

When members are on a field trip or need to use a public bathroom there will be at least 3 members and a staff to prevent one on one interaction between staff and members. Members shall never enter the restroom alone unless it is a single-stall restroom that is

empty. One member will enter the single-stall restroom at a time. If the public restroom has multiple stalls Club members will enter the restroom using the rule of three and staying together. Staff are permitted to enter the bathroom as well but they should stay close to the entrance of the restroom maintaining supervision. When possible, staff will monitor the restroom before used by members to ensure that it is free of other adults.

If a member has to use the restroom while the bus is in transit, they will need to wait until the bus driver can get off the next exit or into a place where there is a restroom. The bus will not pull over to the side of the road nor are members allowed to urinate in containers on the bus. If a member has an accident on the bus, it will be dealt with as quietly as possible.

Water Safety Policy / Field Trip Policy / Emergency Water Plan

During summer days or in hot weather members may participate in water play which include but not limited to water table, wading pools, slip and slide, water slides, or attend a field trip to a beach. Parents will have advanced notice of the location and times if any member is going to the beach or any other field trip.

All members that participate in water play while onsite will be supervised by a staff who is water safety certified. All beach trips must have a lifeguard on duty either provided by the Club or by the beach. If the lifeguard is provided by the Club that staff member will NOT be counted in the child to staff ratio.

While members are participating in any kind of water play staff must check the water safety checklist before entering the body of water. Once a month both staff and members will complete a water evacuation drill. If an emergency does occur during water play staff will alert the members with an emergency alarm. All members and staff will then evacuate the water and proceed to their safety area. The safety area is located where towels and other belongings are kept during water play or on a beach trip. If the emergency causes members and staff to relocate to another safety area staff will lead members back to the bus or to an area away from the emergency. Once everyone is safe families will be notified by the staff in charge. Child Care members are asked to wear Club shirts while on field trips at all times even while in the water.

The Staff and the supervisor will report the incident to the State of Maine Department of Protective Services with or without prior parental notification as well as reporting the incident to BGCA within 24 hours via the critical incident portal. Parental notification will depend on the nature of the situation. All staff are mandated reporters of suspected cases of child abuse and neglect and have been trained through an approved training set forth by BGCA. A copy of the State of Maine Care Licensing Regulations regarding abuse and neglect are available in the front office.

Clear reporting policies and procedures are an important element in responding to incidents that might occur in Clubhouses. Staff and volunteers must at a minimum immediately report and document all safety incidents that might affect staff, volunteers, members, and others who visit Clubhouses.

Before completing this process, it may be helpful to review relevant links under Guidance. If you are not sure how the Maine Human Rights Act may apply to, you please review the publication "What It Is! How It Works!". Maine is an equal opportunity provider and employer.

The Summer Food Service Program (SFSP) was established to ensure that children continue to receive nutritious meals when school is not in session. The U.S. Department of Agriculture's (USDA) Food and Nutrition Service (FNS) administers the SFSP at the national level and the State of Maine Department of Education at the State level. This program reimburses a portion of the expenses related to providing a healthy lunch and afternoon snack to all children age 18 and under. The Boys & Girls Clubs of Kennebec Valley Sandra M. Prescott is an open summer feeding site.

Food Allergies / Replacement Meals

Parents/Guardians must notify the Child Care Director and/or the Food Service Director as soon as possible if a member has or develops a food allergy. The Club requires a Dietary Restriction and Substitution Statement form with a physician's signature to be completed before the Club can provide alternate meals. Alternative meals will not be provided by the Club if food substitutions are by choice. Meals and snacks can be provided by parents/guardians on any or all occasions.

We ask that parents/guardians inquire about any other allergies in the classroom or building before sending the member with a replacement meal/snack. Refrigeration is not available for members. Please make sure that all meals/snacks are properly stored in a lunchbox/container with an ice pack if needed. Infant and Toddler meals need to be packaged in a closed container with a label that has the member's names and date it was prepared. These meals can be refrigerated in the classrooms. Monthly menus are available for all locations.

Food from Home & Treats from Home

On occasion individual programs have holiday parties or classroom celebrations where parents/guardians are asked to bring in special treats. We ask as much as possible for treats to be prepackaged. This prevents treats with unknown ingredients being brought into the classrooms which protects members with allergies. Please make sure that anything brought in is approved by the Child Care Director, Head Teacher or Program Director.

Food and Drink Prepared Onsite

BGCKV Sandra M. Prescott Clubhouse prepares and distributes food/drink for consumption. This site shall comply with all applicable food service sanitation and public health codes. All dangerous kitchen utensils such as knives are properly and securely stored. If such utensils are in program spaces, they are properly and securely stored as well.

Technology Policies & Procedures

The Club is committed to providing the safe use of technology and online safety for members, staff, and volunteers. The acceptable use policy provides the framework for those safety practices and procedures.

Club Member Usage

Before a member will be allowed to use Club technology equipment or their personal device, both the member and his/her parent/guardian will need to read and sign the Technology Acceptable Use policy form and return it to the Club. Under the Technology Acceptable Use policy, the following relevant principles shall apply:

Club devices shall include all Club-owned existing and/or emerging technologies and devices that can take photographs, play, and record audio or video, input text, upload and download content and/or media and transmit or receive messages or images.

Personally owned devices shall include all member-owned existing and/or emerging technologies and devices that can take photographs, play and record audio or video, input text, upload and download content and/or media and transmit or receive messages or images.

Club purposes shall include program activities, career development, communication with experts and/or Club peer members, homework, and Club activities. Members are expected to act responsibly and thoughtfully when using technology resources. Members bear the burden of responsibility to inquire with staff when they are unsure of the permissibility of a particular use of technology prior to engaging in its use.

Authorized use: Club devices and personally owned devices are permitted for use during approved Club times for Club purposes and in approved locations only. The Club expressly prohibits the use of Club devices or personally owned devices in locker rooms, restrooms, and other areas where there is an expectation of privacy.

Appropriate use: Members may not use any technology to harass, threaten, demean, humiliate, intimidate, embarrass, or annoy their peers or others in their community. Any inappropriate use of a Club or personally owned device, as determined by Club staff, can lead to disciplinary action including but not limited to confiscation of the device, immediate suspension from the Club,

termination of membership or other disciplinary actions determined to be appropriate to the Club's existing disciplinary policies including, if applicable, referral to local law enforcement.

Monitoring and inspection: BGCKV reserves the right to monitor, inspect, copy, and review any personally owned device that is brought to the Club. Parents/guardians will be notified before such an inspection takes place and may be present, at their choice, during the inspection.

Parents/guardians may refuse to allow such inspections. If so, the member may be barred from bringing personally owned devices to the Club in the future.

Loss and damage: Members are responsible for keeping devices with them at all times. Staff are not responsible for the security and condition of the member's personal device. Furthermore, the Club is not liable for the loss, damage, misuse, or theft of any personally owned device brought to the Club.

Any inappropriate or unauthorized use of a Club or personally owned device, as determined by Club staff, can lead to disciplinary action including but not limited to confiscation of the device, immediate suspension from the Club, termination of membership or other disciplinary actions determined to be appropriate to the Club's existing disciplinary policies, including, if applicable, referral to local law enforcement.

Members must be aware of the appropriateness of communications when using Club or personally owned devices. Inappropriate communication is prohibited in any public or private messages, as well as material posted online. Inappropriate communication includes but is not limited to the following:

- Obscene, profane, lewd, vulgar, rude, inflammatory, threatening, or disrespectful language or images typed, posted, or spoken by members;
- Information that could cause damage to an individual or the Club community or create the danger of disruption of the Club environment;
- Personal attacks, including prejudicial or discriminatory attacks;
- Harassment (persistently acting in a manner that distresses or annoys another person) or stalking of others;
- Knowingly or recklessly posting false or defamatory information about a person or organization; or
- Communication that promotes the destruction of property, including the acquisition or creation of weapons or other destructive devices.

If a member is told to stop sending communications, that member must cease the activity immediately.

Cyberbullying: Members may not utilize any technology to harass, threaten, demean, humiliate, intimidate, embarrass, or annoy their peers or others in their community. This behavior is cyberbullying, which is defined as bullying that takes place using emerging technologies and devices. Any cyberbullying that is determined to disrupt the safety and/or well-being of the Club, Club members, Club staff or community is subject to disciplinary action.

Examples of cyberbullying include, but are not limited to:

- Harassing, threatening or hurtful text messages, emails, or comments on social media.
- Rumors sent by email or posted on social networking sites.
- Embarrassing pictures, videos, websites, or fake profiles.

Members may not attempt to gain unauthorized access to the Club's network, or to any other computer system through the Club's network. This includes attempting to log in through another person's account or accessing another person's files. Members may not use the Club's network to engage in any illegal act, including, but not limited to, arranging for the purchase or sale of alcohol, tobacco, or other drugs; engaging in criminal activity; or threatening the safety of another person. Members may not make deliberate attempts to disrupt the computer system or destroy data by spreading computer viruses.

Monitoring and inspection: BGCKV reserves the right to monitor, inspect, copy, and review

files stored on Club-owned devices or networks. In addition, BGCKV reserves the right to inspect and/or review personally owned devices that are brought to the Club.

Parents/guardians will be notified before such an inspection takes place and may be present, at their choice, during the inspection. Parents/guardians may refuse to allow such inspections, but the member may be barred from bringing personally owned devices to the Club in the future.

Internet access: Personally owned devices used at the Club must access the internet via the Club's content-filtered wireless network and are not permitted to directly connect to the internet through a phone network or other content service provider. BGCKV reserves the right to monitor communication and internet traffic, and to manage, open or close access to specific online websites, portals, networks, or other services. Members must follow Club procedures to access the Club's internet service.

Loss and damage: Members are responsible for keeping the personal device with them at all times. Staff are not responsible for the security and/or condition of the member's personal device.

Furthermore, the Club shall not be liable for the loss, damage, misuse, or theft of any personally owned device brought to the Club.

Parental notification and responsibility: While the BGCKV Technology Acceptable Use Policy restricts the access of inappropriate material, supervision of internet usage might not always be possible. Due to the wide range of material available on the internet, some material might not fit the particular values of members and/or their families. Because of this, it is not considered practical for BGCKV to monitor and enforce a wide range of social values in student use of the internet. If parents/guardians do not want members to access information beyond the scope of the Technology Acceptable Use Policy, they should instruct members not to access such materials.

Digital citizenship: Club members shall conduct themselves online in a manner that is aligned with the BGCKV Code of Conduct. The same rules and guidelines members are expected to follow offline (i.e., in the real world) shall also be followed when online. Should a member behave online in a manner that violates the Clubs Code of Conduct, that member shall face the same discipline policy and actions they would if their behavior had happened within the physical Club environment.

Club-owned-and-operated technology: Members are expected to follow the same rules and guidelines when using Club-owned technology. Club technology and systems are the property of the Club, are intended to be used for Club purposes and are to be used during approved times with appropriate supervision. Club members shall never access or use Club technology or systems without prior approval.

Digital citizenship and technology safety training: All members who wish to use a Boys & Girls Clubs device or equipment will be required to successfully complete a BGCA-provided digital citizenship and technology safety training. This training is required for all members annually.

Member and Staff/Volunteers technology responsibility: Any person hired by the Club or volunteers for the Club is prohibited from having any private or isolated meeting or communication with a member via any technological platform such as but not limited to texting, video chat and social media between only a staff member or volunteer and a single member.

Use of Video Surveillance

The Club recognizes that maintaining the safety and security of Club members, staff, volunteers and Club property is best implemented with a multifaceted approach. Modern technology, including video surveillance, can provide tools to maintain safety and security. While video surveillance does not replace appropriate supervision by Club staff, it provides an additional layer of protection.

Placement & Notification of Video Surveillance

Cameras are installed in and around Club facilities, property and vehicles. The system provides constant monitoring 24/7.

Video surveillance equipment will not be used or installed in areas where Club members, staff, volunteers, or parents/guardians have a reasonable expectation of privacy restrooms.

The Club will determine the operation schedule of any video surveillance equipment in its discretion. Video monitors are not in areas that enable public viewing.

The Club shall notify Club members, parents/guardians, staff and the public that video surveillance systems are present by signs prominently displayed in appropriate locations throughout the facilities and grounds and provide any other notification or consent as requires by applicable law.

Access to Video Images

The use of video surveillance equipment on Club grounds shall be supervised and controlled by the

CEO. The actual recording equipment will be maintained in an area that is locked and secure to only be accessed by authorized personnel. Live video monitoring may randomly occur as needed.

Video data is recorded and stored digitally. Video recording data is considered confidential and secure. Access to live and recorded video data is **strictly limited** to authorized Boys & Girls Clubs personnel. These authorized personnel are trained in video surveillance policy and how video data should be used during any official investigation.

Video recording data may be used as evidence that a Club member, parent/guardian, staff member, volunteer, or other person has engaged in behavior that violates State or local law, polices, and/or Club rules. Video footage is subject to production by a valid subpoena or other court order.

The Boys & Girls Clubs of Kennebec Valley reserves all rights to update or amend any and all policies as deemed necessary
