

## 72 - 78 Ford V8 Club of N.S.W.

## P.O. Box 4021 Marayong N.S.W. 2148

Welcome to 2016!

So far we have three successful runs under our belt, Wisemans Ferry, Old Catalina Raceway in Katoomba and most recently, HARS aircraft museum this month. All with good turnouts. <a href="April see"><u>April see</u></a>'s us go back to Pizza with Muscle, hopefully with a better turnout (and weather) than last year. Please note in your survival guides that it is a <a href="SATURDAY EVENING"><u>SATURDAY EVENING</u></a> RUN..

While on runs, enclosed are two updated sheets for May and June.

<u>May</u> is the now famous run up to Wollombi pub with the GT inc Club and others. Please note the date has changed, that's the reason for the updated guide.

<u>June</u> also has a date change, one that was forced upon us. The Alroy Tavern has organised a family fun day for our concourse day, but they made it the week after our event, so it is easier to move our date than theirs... sorry. Guide sheet replacement in also included!

Our Club day will be sponsored this year, with a new addition. As always we have the Alroy Tavern. They will be helping with promotion and of course allowing us to hold the event in their carpark.

<u>Blacktown Automotive</u> is once again sponsoring the event by helping out with costs. Big thanks to John at Blacktown Automotive. Feel free to name drop the club next time you need any mechanical work done there, he will help you out.

At this stage a local engineering shop, <u>Monfort Engineering</u>, looks like they will be on board too, so exciting times.

Some changes to the committee this year, with Graham Simms moving house and ultimately leaving the club, Peter Wilson will be taking over the accounts as our newly inducted treasurer- welcome to the team Pete!

We have a few new members too, so hopefully they can make it to the concours day and we can introduce ourselves.

That's it for now, so, update your survival guides so you don't miss out on the runs.

72-78 Ford V8 Club Committee.
