# Why Choose Betterair®?

The World's Only Probiotic System That  
Cleans the Air, Surfaces & Objects Naturally

- ✓ creates a hypo-allergenic clean zone
- ✓ easy to install & maintain – fully automated, operates 24/7
- ✓ purifying solutions available for any size space
- ✓ penetrates impossible to reach surfaces that air filters can't
- ✓ rebalances indoor biome to foster a healthier immune system
- ✓ organic probiotics – no harsh chemicals or additives whatsoever
- ✓ extends the life of HVAC systems & filters

Traditional systems simply filter your air. Betterair® goes further to treat your entire environment, purifying air, surfaces and objects to reduce inanimate allergens at the source. Our patented microburst misting technology works on a microscopic level and repetitively releases billions of micron sized Enviro-Biotics® (environmental probiotics) to clean the air and clean surfaces and objects. Enviro-Biotics® support healthy immune function, are chemical free, 100% natural and are certified safe for people and pets.

**Our versatile, scalable commercial size units simply hook up to your existing HVAC system.**
