CAPABILITY STATEMENT

Company Overview

Country Powerline Constructions specialises in high-quality distribution and sub transmission powerline infrastructure solutions across the Central West region. We are a trusted partner in delivering safe, reliable and efficient powerline construction and maintenance services.

Core Competencies

Powerline Construction: Design, installation and maintenance of powerline systems for residential, commercial and industrial applications.

Safety First: Adherence to the highest safety standards to ensure the well-being of our team and the community.

Quality Assurance: Rigorous quality control processes to guarantee superior workmanship and long-lasting results.

On-Time Delivery: Proven track record of completing projects on schedule, meeting or exceeding client expectations.

Budget Management: Expert project management to deliver services within budget constraints.

Experienced Team: Highly skilled professionals with extensive experience in powerline construction and maintenance.

Innovative Solutions: Utilisation of the latest technologies and methods to enhance efficiency and effectiveness.

Customer-Centric Approach: Tailored solutions to meet specific client needs with a focus on clear communication and transparency.

Local Expertise: In-depth understanding of the Central West region's unique requirements and challenges.

Accreditation:

- Level 1 and Level 2 Authorised Service Provider (ASP1 / ASP2)
- A-Grade Accreditations with Ausgrid and Essential Energy
- Essential Energy - Prequalified Complex Contractor until 25/03/2028
- ISO 45001:2018
- ISO 14001:2015
- ISO 9001:2015

Mission Statement

At Country Powerline Constructions, our mission is to deliver exceptional powerline infrastructure solutions with a steadfast commitment to safety, quality, and reliability. We strive to exceed client expectations by ensuring projects are completed on time and within budget, while fostering innovation and maintaining the highest standards of workmanship. Our dedication to excellence drives us to build and maintain the vital energy networks that power our communities, ensuring a brighter, more reliable future for the Central West region.
