FROM OUR Paint/Stain Department: Our "Up Yonder" Private Label Ceiling Paint " offers you a great look and a supreme finish. Your only question will be -What color should I pick and what needs a new coat of paint? Stop in and save on your next project. Our favorite Coronado color this month is Emerald Isle. Don't be tempted to start too early on deck stains. We have all the cleaning products you need. We rent pressure washers too. Remember that during the spring wet months your decks need drying time.

A reminder that we are expanding our **Old Masters** product line. We now have Ascend exterior waterborne finish in Matte, Satin, SemiGloss and Gloss. Ascend Exterior Water-Based Clear Finish is a durable coating designed for exterior application on wood or painted wood surfaces. It contains ultraviolet absorbers for advanced sun protection and dries quickly and cleans easily with soap and water. Use it on properly prepared exterior surfaces, such as railings, outdoor furniture, above waterline marine surfaces, as well as doors. It can also be used on interior windowsills and door frames for added ultraviolet protection. For interiors we have Master's Armor, a waterborne finish in Flat, Satin, SemiGloss and Gloss. Master's Armor also has a hardener additive available to make the finish even more durable. Masters Armor Interior Water-Based Clear Finish will provide a beautiful clear finish using cutting-edge technology. This product will enhance your wood project by being easy to apply and fast drying while providing excellent clarity and superior durability. Masters Armor can be used on floors, cabinets, furniture, or almost any type of woodwork.

FROM OUR Tools & Supplies Department: Our favorite greens are our Wooster big green buckets and rollers. "Pelican Buckets" are designed to balance the strain on your hands and have a great magnet to hold your brush when not in use. Plus, if you use the liners, the Pelican is great for a pour of your favorite adult beverage when the job is done! Stop by and check out our display of new products including a selection of LED headlamps and work lights. The headlamps can be clipped on a cap or worn with or without a cap, and some have both spotlights and wide beam lights. One even has a sensor that you can use to control the light with a wave of the hand. Check out the Smart Knife that is a multitool with over a dozen different uses, including screw drivers, wrenches, and of course, a very sharp knife!
