**FROM OUR Tools & Supplies Department:** We are close to the start of DECK SEASON! The first step is a complete cleaning process. For newer decks in good condition that just need quick cleaning, we have Deck Wash, which will clean and brighten the surface in one step. For older decks, or decks that need a more thorough cleaning, we recommend using the deck cleaning system from Defy. This consists of an oxygen bleach cleaner, followed by a rinse with Wood Brightener. This system will rehabilitate older decks and remove loose remnants of previous coatings, leaving the surface clean, bright, and ready for a new coat of your chosen deck finish. If you have old solid stain still on the surface, we have a concentrated stain remover from Rock Miracle that will remove the old stain. Follow up with a rinse with Deck Wash to neutralize the surface, make any repairs needed, including sanding rough surfaces as needed, then apply your chosen deck finish. If you have questions, let us know! We are here to help you get your deck ready for DECK SEASON!
