

From the Desk of Your Pastor

June 2023

Believe it or not, we're approaching the halfway mark of 2023! Whether you've been surprised by the blessings of this year or disheartened by the difficulties, June is a great time to pause and reflect on where you're headed and what Holy Moments you'd like to create.

Take time over the next few weeks to come up with a dream for the rest of 2023—and to ask God what vision he has for you!

Here are 10 inspirations that will invite you make the last 6 months of 2023 better than the first:

Inspiration from Saint Pope John XXIII!

"Consult not your fears but your hopes and your dreams. Think not about your frustrations, but about your unfulfilled potential. Concern yourself not with what you tried and failed in, but with what it is still possible for you to do."

God wants you to dream!

What Holy Moments do you want to create over the next 6 months? Write down your top three Holy Moment dreams and reflect on the first steps you'd need to take to make them happen.

Virtue in focus...

Wisdom is more than just exercising common sense—it's really the gift of thinking the way God thinks and seeing the world the way he sees it. Take a moment to think about the parts of your life you're unsure about. How do you think God would look at those fears, those challenges, and those opportunities?

A burst of wisdom.
