

PPO PROVIDERS

Your medical bills can be reduced if you use physicians, clinics and/or hospitals that are network members of the following PPO's (Preferred Provider Organizations):

University of Utah Medical Center (UofU)– Salt Lake City, Utah

Health InfoNet – www.healthinfonetmt.com

Amera-Net – www.aghealth123.com

You can determine who the member providers of these PPO's are by:

1. Asking your physician's office or facility billing office; or
2. Calling Rocky Mountain Administrators or your employer and have them review the directories of medical providers; or
3. Visit the Rocky Mountain Administrators website at www.rockymountainadministrators.com

The physicians and facilities that have contracted with these PPO's have agreed to accept discounts for their services. In turn, your overall bills are reduced and your individual out-of-pocket expense will be less each time you have the opportunity of using one of these PPO's.
