

A text can demand patience and focus, but a visual requires that students proceed more slowly and methodically, noticing details, making connections, and asking questions. This takes practice.

- What's going on in this picture?
- What do you see that makes you say that?
- What more can you find?

Using some detective work and deductive reasoning, students can produce a family profile from a random grocery receipt.

- What size family is represented?
- Are they healthy eaters or junk food eaters?
- Are they cost conscious?
- What else is obvious?
