

My Bible Reading for November

The book of **JOHN** has layer upon layer of dramatic, insightful teaching sessions led by the Master Teacher. John does not even try to explain how Jesus and God are One and how Jesus was both God and man on earth. He simply reports that it is so, provides testimony from a string of witnesses, and leaves us with his deep and sincere hope that we will have enough faith to believe.

In **ACTS** the church is born! It contains many other firsts as well—the first sermon by a disciple, the first orchestrated persecution of believers, the first martyr, the first non-Jewish convert, and the first missions trip. We see God’s Spirit making bold witnesses out of ordinary people—the secret to the phenomenal success of the first-century church (and any 21st-century church). In **ROMANS** Paul explains what Christians believe. At the writing of Romans, Paul is 20 years deep in the faith. From all he has experienced, he shares what he believes are some of the most important lessons of life.
