Have a Great
Day!

1: Coupons: Paper or Stickers

- Generate validation codes in Cloud.
- Print on a paper coupon.
- Utilize as a "chaser" ticket at the pay stations.
- Customizable text & numeric sequences.

2: Validation BOXX

- Scan parking tickets with integrated barcode reader & select appropriate validation.
- Countertop or table placement for manual or self-validation.
- Ethernet cable connection required (WiFi is not available on this model).
- Small foot print: 7.5" (w) x 8.25" (d) x 15.25" (h).

3: Validation Handheld

- 7.3" Rugged tablet with scanner & WiFi.
- Scan parking tickets with integrated barcode reader & select appropriate validation.
- Optional hand strap or extra battery

4: API/SOAP/XML Integration

- Build your own validation or integrate with another application.

```
POST /dev/cards/get HTTP/1.1
Host: dev-api.p-123.com
X-API-Key: XXXXXXX
{
    "accountId": XXX,
    "request_action": "auth_test"
}
```

5: Web Validation

- Cloud-based validation from any device with Internet access.
- Individual users are granted validation specific permissions.
- Restrict validation users by IP address.
