

"Quintessence..."

Beyond our perspective. Secrets and their answers awaiting. Veils to be lifted.

Holding the planets and stars. Our heavenly bodies. The purest and most concentrated form.
The breath of gods.

Fresh air, clear sky.

Purifying flames

Cleansing waters... just watch the waters.

Fertile soil, earth. Our mother, in the midst of it all. Keeping us grounded if we just let her.

Restore our connection. Returning to the core.

Follow your true sun while touching and lifting the souls of others.

United we will fly...
