15 lbs. (about 60 feedings) \$21.50 \$0.36 per 1,000 lbs. bodyweight (4 oz.)
0-2 week lead time

B Benzoylurea Larvicide family **S** Spinosad Insecticide family **T** Triazine Larvicide family

Our product launch in October last year for BiG 30/32 Milk Replacer went well. We heard great feedback from customers who tried it for the first time and had great success with their calves over the difficult winter months.

While calf health isn't as "urgent" in the summer as in the winter, we firmly believe that this milk replacer will do more than just keep calves alive in the cold weather, we also believe it will grow healthier calves to maturity faster, producing more milk over their lifetime.

That's why we encourage using BiG 30/32 Milk Replacer over the summer. That being said, we have a few bags left in stock that do not contain ClariFly. We hoped to have sold out of that stock by now, but since we haven't, we're giving a special price for BiG 30/32 without ClariFly (while supplies last):

Each 50 lb. Bag \$8 off \$115 per 50 lb. bag
OR
Each 50 lb. Bag \$15 credit towards any fly control products
(Example: buy 4 bags get \$60 credit)

POUR-ON

P **Exit® II Synergized**
Labeled for pour-on, backrubber, spray, or mist.
1% Permethrin, 1% Piperonyl Butoxide (PBO)
