

BoostR™

BoostR reduces & removes reactive molecules from both air + water phases inside sewer infrastructure. Becomes persistent w regular use.

Removes:

- ✓ H₂S, CO, VOCs...
- ✓ Eliminates odors + reactive gases & vapors.
- ✓ Corrosion control.
- ✓ Safe for micro flora & fauna.
- ✓ Simple & easy to handle.
- ✓ Lowers costs! Saves time.

BoostR™
Controls & Removes Odors + H₂S + VOCs
Instructions:

1. General Odor = H₂S + volatile gases = Volatile Organic Compounds (VOCs)
2. Use alone, or with H₂O₂
3. To treat problem areas, pop the lid
4. Hold the bucket upside down to release the gas that contains BoostR to vent
5. As the gas is released, it will rise up the bottom of the well, if not there, burst with gas from the bottom
6. The gas will rise to fill the interior space (most air + VOCs are there)
7. Here's why: the gas is a carrier molecule to sweep reactive molecules + it reacts
8. Usually releases odor compounds in minutes
9. Treat problem areas: H₂S and volatile gases
10. 1 or 2 two gallon BoostR buckets (max 100 lbs)
11. For odorless or severe block issues, treat with BoostR 100 or 200
12. Effectively eliminates H₂S, H₂SO₄, Non-corrosive. Work from treatment plant to septic

Hydrogen Sulfide: (BoostR Removes This)
Colorless gas; Rotten-egg smell. Irritates eyes/skin & respiratory tract. Poisonous! Inhalation causes headache, dizziness, nausea. High levels (>1000 ppm) can be instantly fatal - causes respiratory paralysis; attacks nervous system. Cardiac effects may occur. Highly flammable & explosion hazard.

Benefits

- ✓ Eliminates Odors
- ✓ Reduces Toxic Gases
- ✓ Environmentally Green
- ✓ 100% Active Product (no diluents)
- ✓ Extends Infrastructure Life Span
- ✓ Inexpensive (re analog products)
- ✓ Non-Corrosive
- ✓ Non-Toxic
- ✓ Neutral pH
- ✓ Skin & Eye Safe
- ✓ Long Shelf Life – effectively unlimited
- ✓ Simple Application & Dosage
- ✓ Reduces Wear & Tear on Pumps

Saves Money

Reduces Corrosion Improves Infrastructure Longevity

Easy to Use

Simple Application-Open The Lid Dump The Bag

100 % SAFE & NON-TOXIC

Skin/Eye Safe, And Chemically Non-Reactive

BoostR

Kationx products deliver a continuum of wastewater Treatment solutions – from upstream Collections thru to downstream Treatment Plants.

User Instructions:

1. **BoostR** removes odors & molecules.
2. Dump **BoostR** bag into well.
3. Explode bay by hitting it with water jet.

Dosage:

For initial treatment dose 1 bucket once to twice a week for 3-4 weeks. Then maintain with bi-weekly dosing (and eventually, maybe only monthly). With routine use, a persistent presence builds inside the collections Infrastructure.

For further clarification please contact your sales representative.

Other Uses:

BoostR can also be used at SSOs to remove odors & hazardous gases & vapors...

Safety:

BoostR is safe-to-handle. Rinse with soap & water to remove from skin or eyes. If swallowed, drink water or milk to flush/rinse (It's non-toxic). Wear dust mask to avoid breathing dust.
