

Quality:

We strive to “Cultivate Excellence” in everything we grow. Our product will always be supplied to you in retail ready condition at a fair price.

Our customized soil mixes and pot choices go above and beyond the competition. We custom mix our own soil and provide all the nutrients and fertilizer for each specific crop. We also use true to size pots, rather than the trade sizing of our competitors as well as, air pruned pots. This allows us to provide you with plants that have better roots, better water retention, and all the nutrients they need to thrive in a garden centre or landscape setting.

As an environmentally conscious nursery, we strive to lessen our carbon footprint. Our line of biodegradable coir pots provides our customers with a plastic pot alternative that can be planted directly into the soil. Above ground, the coir pots have air pruning capabilities that promote fibrous root growth and will eliminate root spiraling that occurs in their plastic counterparts. Please have a look at our educational video on this subject.

Pest management is a top priority. Our Integrated Pest Management Plan (I.P.M.) strives to use fewer chemical sprays and more biological options to reduce pests in a more environmentally friendly way. All of this keeps us certified by the C.F.I.A. allowing us to ship across Canada and into the USA.

Service:

We pride ourselves on providing a personal approach to our sales. One of our sales team will be glad to help you with anything you may need. No busy phone menus or extensions; you call, we'll answer.

We have partnered with various top logistic companies to provide you with quick and easy service. We will never charge more than is required as our vast customer base allows us to share freight and service even the smallest of garden centres. We will utilize the best shipping method possible for your order. We use various methods such as refrigerated trailers, tarped flatbeds, small trucks and our own fleet of side door trailers. Your shipment will be packed with maximizing space in mind. Custom shelving units and logistic bars are used to maximize space and save you more on freight.

Your order will arrive with identification labels in various forms. We provide our own bi-lingual picture tags, as well as loop labels and pot sticks. We also can provide custom labelling with pre-pricing for our garden centre customers.

Selection:

We provide a full line of outdoor nursery stock, from shrubs and perennials to large trees and evergreens, we have something for everyone.

We aim to provide you with the “Best of the Brands”, taking out the guess work of the many branded plants by trying them ourselves and only supplying the cultivars we truly believe in. We have partnerships with multiple brands such as Bloomin’ Easy®, Endless Summer®, First Editions®, Proven Winners®, and Tesselaar® Roses including the Flower Carpet® Series and Show Piece™ Series. We also partner with multiple growers in order to provide you with the best cultivars possible.
