

The price is \$2600 per niche.

Additional costs include the cost to engrave the niche doors, which will be done by the same engraving company to keep them uniform. Engraving may only include the deceased name and year of birth and death. Currently, this cost is \$150 plus shipping to and from the engraver.

The cost of the cremation, funeral costs, and urns are not included in the cost of buying a Columbarium niche.

The urns must fit within the niche space, which is 11" wide x 12" deep x 12" high. Dual-use niches must use a box-type urn that allows stacking of two urns to fit the niche dimension.
