To Whom It May Concern

RE: Letter of Endorsement

I am pleased to provide this letter of endorsement for the team at Quality Energy.

First Peoples' Health and Wellbeing engaged Quality Energy in April 2025 to support our organisation's application to the Department of Energy, Environment and Climate Action (DEECA) for the First Peoples' Solar and Storage Initiative.

From the outset, and throughout our ongoing dealings with Quality Energy, our experience has been nothing but positive. Andrew Scott, National Sales Manager – Renewables, has been our primary contact and has proven to be incredibly easy to work with throughout the entire process. Andrew has been responsive, accommodating and very knowledgeable of solar energy solutions. His expertise and professionalism have been of great value to First People's Health and Wellbeing.

Andrew expertly facilitated the preparation of Quality Energy's Solar Feasibility Report for First Peoples' Health and Wellbeing, taking the time to

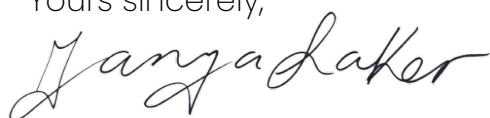

meet with us on-site to thoroughly review and explain the findings. Beyond the technical work, Andrew proactively assisted us in understanding the DEECA application process and supported our successful application. Throughout the lengthy waiting period for a decision on our application, Andrew maintained excellent communication with our team.

Following our successful application, we had no hesitation in engaging Andrew and the Quality Energy team to proceed with our solar panel installation, which, in a short turnaround is scheduled for installation in December 2025.

We have no hesitation in recommending Quality Energy for your solar feasibility study or any other planning projects, and operational installations. Their technical expertise, customer service and commitment to clients make them a great partner organisation.

Please do not hesitate to contact me should you require any further information regarding our experience with Quality Energy.

Yours sincerely,

A handwritten signature in black ink, reading 'Tanya Laker' in a cursive script.
