## TOWING *AND HAULING*

### WARN WINCH VRX-35S

WARN winch for all those situations where an strong hauling capacity is required, up to 1.500 kgs. Durable all-metal construction features black powder-coated finish and stainless steel fasteners for corrosion resistance; IP68-rated waterproof sealing keeps the elements out. It has a 5mm x 15m synthetic cable, much safer and resistant than steel. Load-holding mechanical brake offers great control. Includes installation components.

9990000009

## TOWING AND HAULING

### WARN DASHBOARD ROCKER SWITCH

Switch for easy operation of the winch from a push-button of the dashboard.

Kit composed of a illuminated rocker switch and wiring required for make the connection.

9990000003

### WARN WIRED REMOTE CONTROL

Winch wired remote control.

The kit includes all the necessary components for your installation.

9990000010

### WARN WIRELESS REMOTE CONTROL

Wireless remote control to operate the winch.

Equipped with colored LEDs and large buttons for an easy handle even with gloves. Simple installation by means of a receiver with an internal aerial. It works up to 3 meters away.

9990000011

## TOWING AND HAULING

### TOWING ANCHORING

Anchoring receiver for front hauling.  
Colour: black.  
Includes installation components.

10CK0000024

### REAR RECEIVER

Rear anchoring receiver of 2" with high compatibility.  
Colour: black.  
Includes installation components.

10CK0000025

## STORAGE AND CARGO BOX

### SIDE STORAGE PODS

2 storage pods pack of high-resistance plastic. It is sealed against water filtrations and dirt. Light batting door with key security lock.

Colour: black.

Includes installation components.

 100 L Total storage capacity.

10CK0000016

 ENGINEERED

### UNDER-SEAT COMPARTMENTS

3 storage compartments kit to place under the seats. Easy access. Resistant plastic. Light batting door with key security lock.

Colour: black.

Includes installation components.

 69 L Total storage capacity.

10CK0000015

 ENGINEERED

## STORAGE AND CARGO BOX

### ROOF BAR

The roof bar maximizes the loading capacity due to its fastening function. It is designed to provide an extra support to secure high volumes and heights.

Colour: Black.

Includes installation components.

10CK0000032

### CARGO BED COVER

Structure to protect the load that is transported in the cargo box. Made of rigid and lightweight ABS material. Double closing. It has two gas springs to facilitate opening and maintaining the lid. Black color.

Includes kit of components needed for installation.

10CK0000029

## ***STORAGE AND CARGO BOX***

### **ELECTRO-HYDRAULIC CARGO BOX LIFT**

Electro-hydraulic system for the tilting of the cargo box, allowing the unloading in a comfortable and safe way. It is activated from a switch button of the dashboard.

Includes kit of components required for installation.

10CK0000027

## STORAGE AND CARGO BOX

### CARGO BOX SIDE EXTENSIONS

Maximize the storage volume of the cargo box with these steel side extensions. Structure equipped with lock. Double leaf doors.  
Black color.  
Includes kit of components required for installation.

10CK0000030

## STYLE AND COMFORT

### DOOR WITH WINDOW

2 door pack (driver and passenger). ABS material with sliding window made of tempered glass resistant to hits and scratches. Waterproof design to increase the isolation of the cabin and reduce noises. It is light and can be opened easily from the inside.

Includes kit of components needed for installation.

10CK0000028

## STYLE AND COMFORT

### FRONTAL WINDSCREEN AND WIPER WITH WATER JET

Tempered glass protection against external agents and noise reducing. It provides a large visibility due to its dimensions. High resistance to impacts. Sealing rubber perimeter. Front reflections reduction system. It can be cleaned in movement by means of a wiper with sole speed and water jet.

10CK0000011

### REAR WINDSCREEN

Rear glass which protects the cabin from external agents such as air flux. It reduces the vibrating sensation and the engine noise. It counts on a rubber sealing perimeter. Good visibility and reflection reducing thanks to its micro-perforated vinyl with Corvus logo. High resistance to impacts. Includes installation components.

10CK0000014

## ADVANCED ROOF

Get greater protection of the cabin with the ADVANCED roof. This new accessory is designed with the rollbar's wrap-around shape, providing an improved protection of the passengers from the rain, snow and wind.

Black color.

Includes kit of components needed for installation.

10CK0000026

## STYLE AND COMFORT

### INNER REARVIEW MIRROR

Convex mirror with dimensions 208x71 which allows a broad visibility angle. A ball joint enables a personalized position adjustment. Plastic frame with easy assembling.

Colour: black.

Includes installation components.

10CK0000012

### COURTESY LIGHT

Cabin inner lighting system. It can be actioned by a two-position button.

Easy assembling.

Includes installation components.

10CK0000013

## STYLE AND COMFORT

### CARGO-BOX RUG

An anti-slip silicone surface reduces the movement of the load and prevents from blows.  
Keeps the cargo-box surface clean and protected from scratches.  
Easy assembling.  
Colour: black.

19150010051

### BOTTLE STORAGE

Holding system for bottle transport. Its composed by two plastic pieces which are adapted to the side of the cabin.  
Easy assembling.  
Colour: black.

10CK0000017

# SECURITY

## BEACON LIGHT

Rotary intermittent LED light of high intensity. 12-24V tension with auxiliary power point. 360° coverage.

Colour: orange.

Includes electric installation and switch for its assembling.

10CK0000018

## REVERSE BUZZER-LIGHT WIRING

This kit allows the supply and connection of the light and/or acoustic warning device, which is activated when the reverse position is activated. Installation kit composed of cable and electronic device. Maximum power supply: 60w.
