

A large number of plants that had been used for an event were offered to us so that hopefully Wild Woods Restoration Project could find a use for them to support our mission. We took this opportunity to save plants from the landfill, but unfortunately most of these plants are not native and don't fit our mission. So we are offering them for sale as a fundraiser to support our work. These plants are mostly large, mature, flowering plants in gallon or 3 quart pots. All were originally purchased from Glover Nursery.

We are offering them for a discounted **flat price of \$5.00 per pot (plus tax). Minimum order 5 pots.**

These plants would be great for more formal landscaping or garden settings. They should not be used for restoration projects. Some are deer-resistant, some are not – please do your research if deer are a problem.

ALL PLANTS MUST BE PICKED UP AT 219 CLOVE ROAD, SALISBURY MILLS, NY **BEFORE AUGUST 23.**
Scheduled by appointment.

To order, send plant name and quantity desired to sales@wildwoodsproject.org

We'll send an invoice back confirming we have reserved the plants for you and information about how to make an appointment to pick up the plants. Please DON'T drop in.

Common Name	Scientific Name	Count	Size	Note
Anise hyssop	Agastache 'Blue fortune'	31	1 gal	Hybrid w Native & Asian
Anise hyssop	Agastache 'Spicy'	5	1 gal	Native cultivar
