- \$200 Frank R.

Come On In!

...

Our club house is warm and inviting. Enjoy the full kitchen and seating area. We also offer gun set-up areas, club guns to lend, and ammunition for sale. You just may catch us firing up the bar-b-que.

**COVERED
5-Stand**

...

We have five COVERED shooting stations, or *stands*, and six strategically located traps (clay target throwers). Shooters shoot in turn at various combinations of clay birds. Each station has a menu card that lets the shooter know the sequence of which trap throws the clay bird.

All Stocked Up For 2023

...

We just took delivery of 9 pallets of clay targets. They're stored safely away, onsite, in our secure storage unit where they'll be cool and dry – ready to go for your next shooting outing.

Our membership is growing, and people are enjoying more activities. That makes for an unpredictable demand for “clays.” We order in bulk, to keep costs down and smiles abundant.

Pick Up Your Hulls

...

The math is simple:

- 50 shells/day/person
- 30 people/Sunday

1,500 spent hulls on Sunday!

Let's all do our part to keep our club looking great!

Spring Activities

...

The Clinton Fish & Game Club is thriving!

We recently rolled from our full range of winter activities, which included skeet, trap, 5-stand, outdoor rifle, outdoor pistol, and indoor pistol, right into a full slate of spring activities.

And, we recently opened sporting clays.

To support this broad range of options, we did a lot of work behind the scenes.

First, we held a highly successful spring clean-up day. A very large number of members turned up to clean and tidy-up the clubhouse as well as to prepare the shooting fields for activity. Branches were removed; dry leaves were blown away; sidewalks, patios, and shooting stations were edged; hulls were collected and disposed of; and all the lawns were mowed. The club looks great.

The traps were all inspected to affirm they are in good working order. For the few that aren't, plans were made for repair as resources allow.

We are ready to handle the 2023 season. A big THANK YOU to everyone who was able to pitch-in and put our club's best foot forward.

NEXT: We are updating Skeet Field 1 with new Promatic trap machines. Our field geometry is being updated to be consistent with NSSA requirements.

Cleaning up our skeet stands.

Making short work of our large campus.

Many hands make light work.
