SCHOOL OVERVIEW

Nemarluk School is a Northern Territory, Department of Education (DoE) school for children who require specialised and individualised educational programs. It delivers preschool and primary school programs. The school motto is “Education for Life”. Partnerships with families and carers are essential to enact the motto. The school focus is fostering independent learners who have a positive outlook and are engaged members of their community.

The entry criteria for enrolment at Nemarluk School is in line with the DoE Students with Disabilities Policy (2016). Students must live in the Darwin area. Classes are small and programs are planned and delivered by a Teacher and a Special Education Support Officer (SESO).

Learning programs follow the Australian Curriculum and reflect recommendations from pediatricians, psychologists, therapists and priorities of families/carers.

Some classes are based in other Primary Schools for part of the week as part of our satellite class program. Our Partnering schools are Nightcliff, Millner, Stuart Park, Wulagi, Manunda Terrace, Karama and Wanguri

HISTORY

In July 1986 Nemarluk School was officially recognised as a specialist school in its own right. It had been administrated by Ludmilla Primary School as a Special Unit since the early 1970s. The first satellite class was established in 1989. There are now 10 satellite classes working in 7 host primary schools. In 1994 the school name was changed from Ludmilla Special School to Nemarluk School. This was to remove the label ‘special’ and alleviate confusion that had existed with Ludmilla Primary School. The Preschool opened in 1998 and has steadily grown to two sessions a day. In 2006 we celebrated our 20th Anniversary which past Principals, students and dignitaries attended.

In August 2018 we opened our new inclusive playground. It was a project supported by Darwin Business Community and the Department of Education.

In June 2012 we moved to our new purpose built school in Alawa, over the oval from Alawa Primary School.

OUR MISSION

- To enable celebrations of success, talent and creativity
- To develop effective communication
- To support strong family partnerships
- To provide child centered learning that is connected to place, time and culture and fosters individual identity
- To provide positive stimulating learning environments with inclusive challenging programs
- To develop healthy lifestyles
- To promote lifelong learning
- To develop and promote respect and care of our environment

OUR COMMUNITY

Students, staff, families, partner schools, advisors, therapists, service providers, stakeholders and professional networks.

OUR VALUES

Respect, Safety, Learning

OUR VISION

To be a community of safe respectful learners working together to achieve our best.

VALUES

 **Safety**
Respect
Learner

What they would look like
Safety: feeling safe, being safe, working safe, environment safe, knowing your limits, duty of care, stranger danger, personal space.

Respect: kind, caring, tolerance, differences, accepting, compassionate, honest, culturally inclusive, asking for permission, no put-downs, assertive / not aggressive, open mind to others, right to pass.

Learner: trying your best, having a go, asking questions, seeking help, offering help, sharing knowledge, working hard in all our given tasks.

VISION

At Nemarluk School, as a school of excellence, for students with disabilities, we will work collectively so that all students may achieve their best.

BELIEFS

Our overarching belief and the lense to be used when reading these statements is that:
Students are at the centre of all we do.

Our Beliefs at Nemarluk School are that:
The Diversity of culture and beliefs is reflected in all learning.
The individual identity of all students and lifelong learning are fostered.
Positive, engaging learning environments are central to delivering inclusive, individualised programmes.
Care for the environment and others is encouraged in class, school, home and community.
Positive partnerships with families, organisations and agencies are crucial for each child.
Honest, respectful communication is used by all.

CURRENT PRIORITIES

- Performing Arts, Literacy, Numeracy, Health & PE, Sustainability
- Structured Teaching (TEACCH), Berry Street Education Model
- EC Playground redevelopment
- Preschool: NT Preschool Curriculum
- Partnerships: Timor Leste sister school, Charles Darwin University, Alawa School, Satellite Schools

CRITERIA FOR ENTRY

Children eligible to access Nemarluk School are those who fulfill the following criteria:

Year of Entry	Entry Criteria
Early Years: (Preschool to Year 3)	<p>Global Developmental Delay confirmed through comprehensive assessment by a paediatrician, and/or psychologist:</p> <ul style="list-style-type: none"> • Deficits in intellectual functions (at or below 2nd percentile) confirmed by both clinical assessment and individualised, standardised intelligence testing, or • Other evidence of failure to meet developmental milestones in several areas of intellectual functioning when individual's disabilities prevent standardised assessment, or • Deficits in adaptive functioning that result in failure to meet developmental milestones, below 2nd percentile across majority of functioning, and • Adaptive functioning deficits indicate significant impairment in several domains - communication, social participation, early learning and development. <p>Requiring extensive adjustments that are highly individualised, comprehensive and ongoing to allow access to, and participation in the curriculum.</p> <ul style="list-style-type: none"> • By age 8, sufficient valid and reliable assessment evidence must be compiled to confirm diagnosis, identify education needs and program development options.
Primary, Middle and Senior years: (Year 4 to Year 12)	<p>Intellectual Disability confirmed through comprehensive assessment by a psychologist that includes:</p> <ul style="list-style-type: none"> • Deficits in intellectual functions, confirmed by both clinical assessment and individualised, standardised intelligence testing (IQ at or below 2nd percentile) • Deficits in general adaptive functioning (standard score at or below 2nd percentile) that result in failure to meet developmental and socio-cultural standards for personal independence and social responsibility. Those deficits limit functioning in a wide range of activities of daily life. <p>Extensive adjustments that are highly individualised, comprehensive and ongoing to allow access to and participation in the curriculum are required.</p>

Ref: Enrolment of students with disabilities in Special Schools and Special Centres (June 2016)

SCHOOL GROUNDS AND GATE TIMES

Please note the following signs for our school grounds and the gate times. We are trying to minimise disruptions to learning time, develop our student's independence as well as maintain privacy and safety for all students in our care.

Morning: The gate at the parent drop off area will be opened from 7:50am-8:10am

Afternoon: The gate at the parent pick up area will be opened from 2:30pm-2:50pm (Please note parents /carers should not go past the gate without Principal / delegate approval.)

When the gate is locked, please proceed to the front office to drop your child off. Your child can walk independently or with a staff member to class.

If you require a meeting with your child's teacher or you have another query, please contact the office 89850400

Entrance to school grounds through the foyer is limited as per the below information:

Between the hours of 7:50am-2:50pm there are limitations to persons on school grounds please note the signs in the foyer area:

Persons are not allowed beyond this point without permission of the Principal or delegate between 7:50am - 2:50pm. Persons not complying with these directions may be issued with a trespass notice and Police contacted.

This is for the privacy and safety of all students in our school community and to reduce the disruption to their learning and to develop independent learners.

These changes have been made in consultation with the School Council and the Department of Education and they are effective of day one term 4 2023 - Tuesday 10 October.

HEALTH PROMOTING SCHOOL NURSE

Working under Northern Territory Health Promotion Framework, Health Promoting Schools Philosophy and an agreement between NT Departments of Health and Education Health Promoting School Nurse offers evidence based health and wellbeing information, as well as education and support to students, families and staff. Sue is Namarluk's Health Promoting School Nurse.

At Namarluk Focus areas include:

- Health literacy
- Disease prevention/Health maintenance
- Nutrition
- Relationships and protective behaviours
- Wellbeing
- Medications safety and substance use
- Toileting/Continence
- Safety
- Oral Health
- Hygiene
- Growth and development

Role:

- Collaborate with teaching staff to implement identified aspects of Health Curriculum guided by the Health Promoting Schools Framework and Primary Health Principles.
- Partners with students, school staff, families, other health professionals and services within the community to improve access, engagement and Health outcomes for individual students and their families
- Works to enhance the wellbeing of the school community as member of Wellbeing team
- Assists with Health Emergencies and critical incidents including debrief and risk mitigation
- Is a member of Health Care Team promoting best practice approach to students Health management
- Collaborates with staff, families and external agencies to develop and/maintain school wide Health related programs and promote equity and access
- Provides general toileting advice to staff and families and Continence Assessments for referred students (parents request)

As part of their role all NT HPSNs participate in planning and delivery of DoH School Based Immunisation Program in Middle schools. This program currently runs over 4 weeks twice a year.

MOVE (MOBILITY OPPORTUNITIES VIA EDUCATION)

At Namarluk the MOVE program focuses on students who have specific individual program goals around learning to:

- SIT to eat, participate in activities, education and even employment
- STAND such as washing at the sink, food prep, and upright toileting
- WALK to move to participate in play or complete tasks (with and without support)
- TRANSITION from bed to chair, sitting to standing, etc. and
- TOILETING AND HYGIENE WITH DIGNITY (vs. being changed horizontally like an infant)

The program is run by Denielle (Deni) Walsh with guidance from Therapists, Senior Staff and in collaboration with classroom staff.

Student's MOVE program goal/s are part of their Educational Outcomes each year.

HOME LIAISON OFFICER

The Home Liaison Officer, Daryl Preston, supports students to achieve successful educational outcomes, positive wellbeing, and high-level attendance through effective communication and working with students, families, staff, school community members and appropriate service agencies.

- Initiates and maintains communication links between families, students, schools, teachers and service agencies to improve attendance and promote best educational outcomes.
- Partners with families to encourage student engagement through appropriate targeted support, referral and follow-up as required
- Works to enhance the wellbeing of the school community as a member of Wellbeing team.
- Collaborates with local community groups and actively supports individual class groups and school wide activities, programs and events.

THERAPY TEAMS

Children's Development Team: The Children's Development Team (Department of Health) therapists primarily provide a consultative service to school staff and parents/caregivers after a referral request has been accepted. They can assess students, advise families and school staff on areas of individualised programs and student equipment.

CDT therapists are contacted through their office at Casuarina Plaza, Ph 89227283.

NDIS therapists in Schools: Families may request a NDIS registered provider access Northern Territory (NT) Government school to:

- Observe a student in the classroom or in the school environment
- Attend planning for a student's individual learning plan
- Attend meetings to monitor and tailor the support provided to a student
- Provide training/professional learning on school grounds
- Provide support with the management of assistive technology such as standing frames or communication devices
- The school does not have the space or supervision capability to support individual therapy sessions in school

The family and provider must complete and submit a Request to Provide NDIS Services in NT Government Schools and NDIS Service in School Agreement to the school. This form includes family consent and the provider's details.

At Nemarluk School we recognise the value of implementing educational programs for students in a range of school and community settings which best suit their individual needs. Programs are planned for students to learn and practice new skills and use them in real life situations. We have a strong focus on learning about the world around us and how to be active valued members of our community.

Programs and Approaches:

- Structured Teaching
- Berry Street Education Model (BSEM)
- Spirals of Inquiry
- Read Write Inc
- Meaningful Maths
- Movement Opportunities Via Education (MOVE)
- Sustainability
- Casuarina Education Precinct (CEP) Sports
- Choir- Assemblies, BEAT, Casuarina Square Christmas carols, Community events
- Performing Arts- Annual performances
- Community Access
- ICT with Culture Tech- two classes per semester

PRESCHOOL

Nemarluk Preschool opened on 14 April 1998 after advocacy by families of young children with special needs. It is a unique program. Since 2018 preschool has operated 4 days per week, Monday to Thursday. It provides two 3 hour programs - 8.00am to 11.00am and 12.00pm to 3.00pm. Each class of approximately six students has a Teacher, SESO and preschool aide.

The Preschool is a collaborative program involving DoE Early Childhood Intervention and Nemarluk School. Students must meet specific criteria to enrol in the Preschool. These criteria are identified in the DoE “Students with Disabilities Policy 2016”. The program structure is based on the Early Years Learning Framework.

The Preschool students participate in a wide variety of early childhood activities including art/craft, gross motor, sensory motor and swimming/hydrotherapy, directed play, self care and morning/afternoon tea.

The Preschool has a close working relationship with Alawa Preschool, providing opportunities for play and age appropriate interaction.

Each student has an Education Plan developed in partnership with families, teachers, therapists, doctors and education advisors. This team meets once a year to share student achievements, information and decide on priority outcomes.

The Preschool provides for children aged from 3.5 years to five years (when they can enter full time schooling). On completion of preschool each student’s needs are considered and families can enrol their child in a primary school of their choice or continue enrolment at Nemarluk School.

SATELLITE CLASSES

In order to respond to the very diverse needs of our students, Nemarluk School implements programs for a number of our students within local primary schools. These schools are at Karama, Nightcliff, Stuart Park, Millner, Manunda Terrace, Wanguri and Wulagi. At each of these schools, a base classroom is provided and the programs are supported by a Nemarluk School teacher and a SESO. These satellite classes work at the Nemarluk School campus one day per week as well as attend school events such as assembly.

Student placements in these programs are decided in collaboration with families. Decisions regarding the most appropriate placement of each student are based on a number of factors including the number and the needs of students already in the class and the residential address of students. Ultimately it is the Principal's decision.

The teacher from Nemarluk School ensures programs are implemented and is directly responsible to the Principal of Nemarluk School for student wellbeing and programs. However, regular discussions and negotiations with the Principal or leadership team of the host school are undertaken to ensure the operation of the class is in accordance with the policies and procedures of that school.

COMMUNITY PROGRAMS

Community Awareness Programs - From time to time, students take part in excursions that are learning activities linked to units of work or individual learning priorities. Families are informed of the details and provide permission.

Shopping - This program includes menu planning and shopping to buy the ingredients. It is usually on a weekly basis as part of literacy, numeracy and health programs. Students travel by our school bus, public transport or in staff cars. Some classes purchase morning tea or lunch during the shopping program. Each year teachers contact families about the cost of these programs.

Grocery Shopping

Sport - Many of our students participate in sport and leisure activities within the community. These may include gymnastics, soccer, horse riding, bowling, mini golf, rock climbing, bike riding, bush walking, sailing, and canoeing. They also participate in NT School Sport programs.

Sports

Swimming - This program is implemented at the Nemarluk pool and public pools and the instructors are Austswim trained as per DoE policy.

Swimming

CURRICULUM CONTEXT STATEMENTS

Teaching and learning programs are designed using the Australian Curriculum and are delivered from classrooms within the Nemarluk campus and from our satellite classes within local primary schools. We cater for Early Childhood and Primary stages of schooling for students aged 5 – 12 years with moderate and severe intellectual and/or multiple disability.

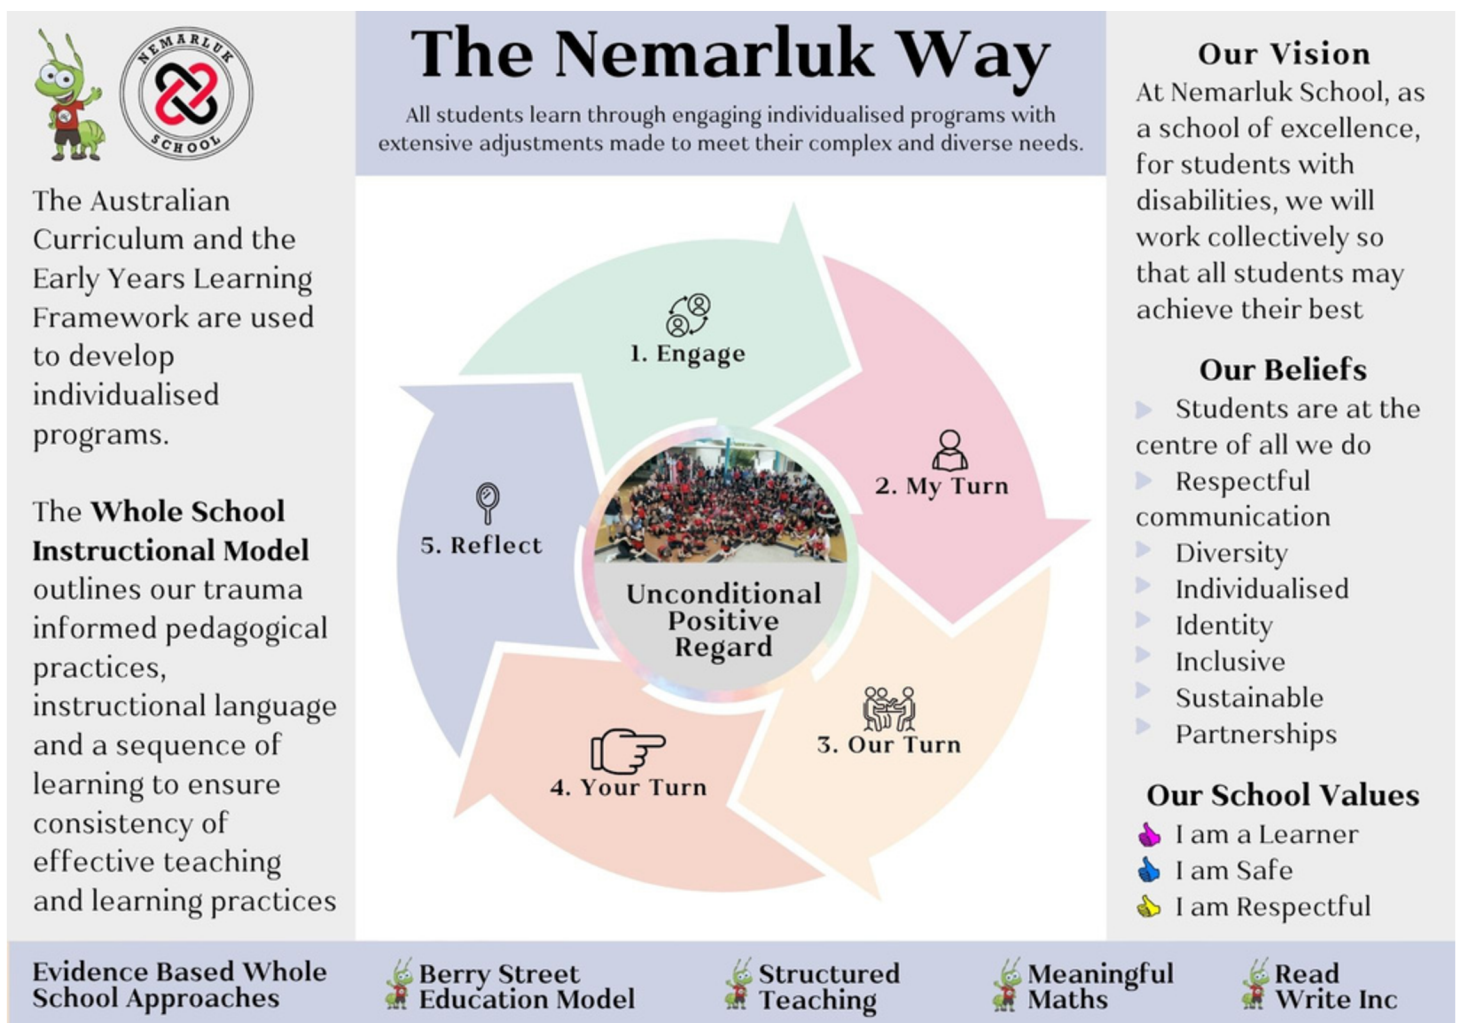

Individualised programs focus on school readiness skills, play, social skills, personal care and self-regulation.

The Curriculum Map (pg. 12) provides guidance to staff to ensure students are provided access to learning from across all learning areas of the curriculum over a two year period.

INSTRUCTIONAL MODEL

A whole school instructional model provides an overview of the learning cycle, breaking it up into phases which are used to structure, plan and facilitate learning.

It provides a common language across the school for improving the quality and consistency of planning and practice.

EDUCATION PLANS

Each student has an Education Plan that documents their prior learning, current abilities, successful strategies and future educational needs. It identifies three or four focus outcomes from the Australian Curriculum and Early Years Learning Framework. These focus outcomes are reviewed annually.

Review Conference is a very important meeting and required by the school and DoE policy. It is attended by families/caregivers, class teacher, senior staff member and, in specific cases, other professionals or support people if requested by the family. An interpreter will be arranged if requested by the family.

The conference is used to:

- Discuss family and program priorities
- Share student achievements and progress
- Update Health Care Plans, Update the Education Plan and determine the focus outcomes
- General discussion and information sharing.
- A draft Education Plans are sent home before the Review Conference for family discussion.

Education Plan is signed by all parties at the Review Conference. The Education Plan is then implemented by the class teacher.

REPORTING PROCESS

Teachers review the progress of each child on an ongoing basis and are happy to share this with families at any time. However, a formal and comprehensive reporting process is undertaken on a yearly basis.

The process identifies student achievements of their focus outcomes, reports on programs and determines priority learning outcomes for the next 12 months. The process is as follows:

- 1.Observations and evidence are collected by the class teacher, SESO, senior staff and therapists throughout the school year.
- 2.Teachers write the report which is discussed with the school leadership team and signed by the principal/assistant principal
- 3.Reports are sent home at the end of Term 4
- 4.A portfolio of work is compiled by the teacher and the student in term 4 each year. It is a record of achievements and a celebration of learning throughout the year. We encourage families to share this with their child and extended family.

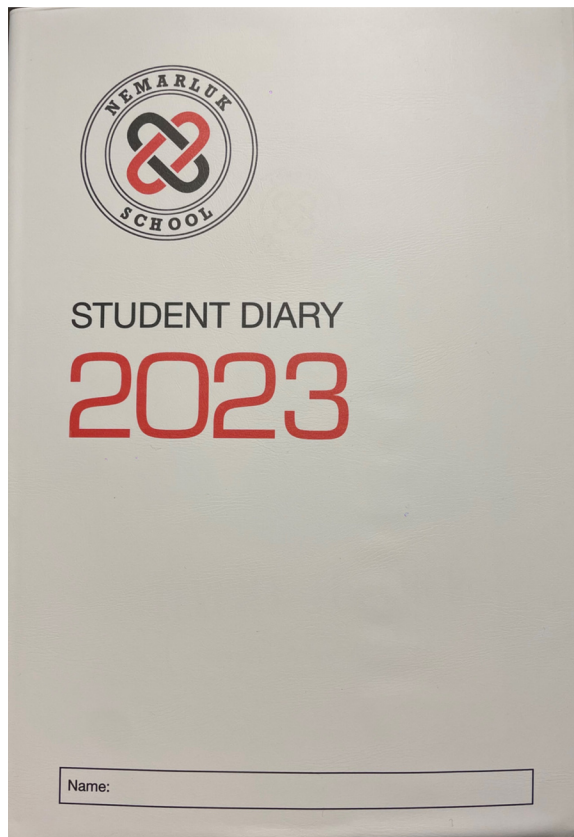

SCHOOL COUNCIL

The School Council is active and involved in school matters. The Council consists of the Principal and elected representatives of families, staff and community. Meetings are held monthly at the school and all families and caregivers are welcome to attend.

COMMUNICATION

Good communication between school and home is essential. Each student has a **communication book** in which the class teacher writes on a regular basis. Families are also encouraged to do the same: what their child has been doing at home, any special family events or any other special information which will help staff to respond as well as possible to the needs, interests and any other important aspects of the student's well-being. Some families prefer **email** or our secure **School Stream** service (see info on back of booklet).

There are occasions when families need to discuss matters with the class teacher. It is best to make an **appointment** so class supervision and location arrangements can be made. Please call in at the office before going to the classroom, as all visitors to the school are required to sign the attendance register in case of emergencies such as fire.

Our **newsletter** is distributed to families in weeks 1, 5 and 9 of each term. The newsletter is focused on the achievements and activities of students, general school information and events that are occurring in the community. It can be emailed or sent in printed copy. It is also uploaded onto the school website. We also use **Facebook** so please 'like' us and join the community.

STUDENT ABSENCES

In order for the school to correctly report student attendance and help keep children safe, please contact the school through the website, communication book or phone if your child is absent from school. Unless notified by family, the school will list any absences as 'un-notified' on the attendance database.

TRANSPORT

Families can **apply** for transport assistance to and from school. Applications are approved by the Public Transport Branch of Department of Planning Infrastructure and Logistics (DIPL). DIPL seeks to provide the appropriate level of transport wherever possible although circumstances may prevent this being provided in all cases. Families can apply for conveyance allowance if they transport their child to school. Conditions need to be met in line with policies.

Applications to vary transport arrangements will take least five working days to be considered. It may not always be possible to fulfill the requests of families.

Buses operate on a strict pick up and set down schedule which cannot readily be changed. Family members or a nominated responsible adult must be present to transfer the student to and from the bus.

Further guidelines for this service are set out in **“Transport for Students with Special Needs: Code of Good Practice”** A copy of this document is available from the school.

SCHOOL UNIFORMS

Our school uniform is available from the office. There are shirt and short options including a Year 6 specific shirt. Students are required to wear a wide brimmed hat outside and attend school in sensible footwear (sandals or enclosed shoes) that is secure and comfortable. Thongs and slip-ons are not acceptable. Students attending our satellite classes in other primary schools can wear the uniform of that school. The DoE ‘Back to School Payment’ can be used to pay for school uniforms. At times, the office has limited supplies of pre-loved uniforms. We will be phasing out our old red uniforms as we have a new one being introduced from 2024 onwards.

HEALTHY SCHOOL PROGRAM

The school supports the DoE Canteen, Nutrition and Healthy Eating Policy. Individual student's dietary requirements are accommodated. We are an ‘Asthma Friendly’, epilepsy/anaphylaxis educated and MAPA trained school. Other priority programs are BSEM, swimming, bike riding, athletics, various team sports, MOVE, sexuality education, Keeping Safe Curriculum, sun safety, croc safety and water safety.

It is requested that children not be sent to school when they are unwell as they cannot participate in planned programs. NT CDC **Time Out** chart (sick room and Nurses office) lists various diagnosed illnesses and recommended 'exclusion times'. A medical certificate is required to clear a child's return to school earlier than the listed recommendations.

Undiagnosed illnesses may be infectious and pose a risk to both students and staff and also interrupt learning. Parents could be requested to care for their child at home and/or visit GP for the following:

- fevers (recent temperatures over 38°)
- unexpected diarrhoea
- vomiting
- flu/cold symptoms: coughing, runny nose, excessive tiredness, aching limbs
- persistent red irritated eyes –(possible infective cause)
- erupting skin sores
- pain/unexplained distress

HEALTH CARE PLAN

Medical conditions which impact on school programs are documented in a Health Care Plan (HCP). The HCP overarches medication, cardiac, asthma, diabetes, epilepsy, continence, exercise, oral care, nutrition, oral eating/drinking and PEG feed plans. All plans completed with families, doctors and other health professionals and reviewed every 12 months or updated as necessary

ADMINISTERING MEDICATION IN SCHOOL

Medication - for parents only medication required during school hours to be given at school.

Short term medication (antibiotics, creams, Panadol, etc.)	Long term medication
Complete the Medication Request by Parent/carer form and instruction form	Complete Medication Request by Parent/carer form consent and instruction form
Supply adequate pharmacy labelled prescription medications and over the counter medication in original packaging	Organise for Medication Instructions from Prescribing Doctor form and instruction form
All unused medication will be returned home at the end of each school when no longer required	Supply adequate pharmacy labelled prescription medications and over the counter medication in original packaging
New forms for any changes	New forms needed for any changes

****All long term medications need to be collected by families from the school when no longer required or at the end of the year****

HEAD LICE

Your child will not be sent home if they appear to have head lice /nits, however, in their interest and also to limit transmission to other students, we will notify you requesting students' hair is checked and appropriate treatment commenced. Once treated your child is free to return to school. Please notify the school if your child has headlice so other families can be sent a general advice slip to check/treat as required.

SUN SAFETY

Nemarluk School promotes sun safety during school activities and excursions. This includes:

- Using available shade for outdoor activities
- Planning activities to reduce time spent in the sun
- Encouraging students to wear protective clothing including hats
- Providing and applying SPF 30+ broad-spectrum water-based sunscreen

HEALTHY EATING

The school promotes the Department of Education's Healthy Eating Guidelines. Please let your child's teacher know of any dietary needs. We understand the challenges many of our students face with sensory issues leading to selective eating. Occupational/Speech Therapy and dietitian advice can be helpful.

Consider limiting the introduction of highly processed foods into your child's diet as these often become preferred foods to the exclusion of more healthy options.

To further support establishing lifelong healthy eating many teachers offer food tasting/shopping/food preparation programs along with lunch programs. Please discuss with your child's teacher.

ORAL HEALTH

Children should be assisted to brush their teeth twice each day and visit the dentist yearly for check-ups from the time their first tooth appears. Limiting added sugar in foods and medicines is also important. Nemarluk staff promote good oral hygiene and work with families to help students develop related skills and knowledge.

Free dental checks and treatment are available from **Oral Health Service NT** at their Casuarina Clinic and a number of Primary School clinics: Call – 89226466 for bookings.

Medicare may pay for essential dental services for some children and adults who are eligible. **Child Dental Benefits Schedule** pays up to \$1,000 over 2 calendar years for children aged 2 to 17 for basic dental services, including dental check-ups, x-rays, cleaning, sealing cracked teeth, fillings, root canals and extractions.

IMMUNISATION

Many of our students have complex health issues making them particularly vulnerable to complications if exposed to various vaccine preventable diseases. We recommend immunisation for all children unless there is a medical reason.

Nemarluk School have started using Seesaw.

Seesaw is a digital learning platform that engages students in a meaningful way.

Seesaw is designed to allow:

- Students to show learning
- Teachers to gain insight
- Families to connect

Join today, please contact the front office, or communicate with your Students teacher for help.

NEMARLUK SCHOOL

XUNO

COMMUNICATION PLATFORM

WHAT IS XUNO AND HOW DO WE USE IT?

XUNO is our whole school management platform which allows a more streamlined approach supporting better data collection across the school for student progress and reporting, behaviour incidents, and first aid register.

Data can only be accessed by the current classroom teacher, Nemarluk leadership and admin team members.

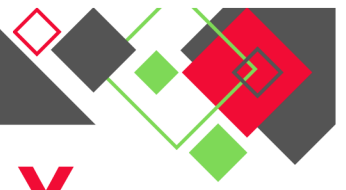

XUNO is also used as our main communication platform, where you can find information regarding upcoming events, important notices and community news.

School Leadership Team will also use XUNO to communicate with the whole school community with urgent information if there is a critical incident or emergency.

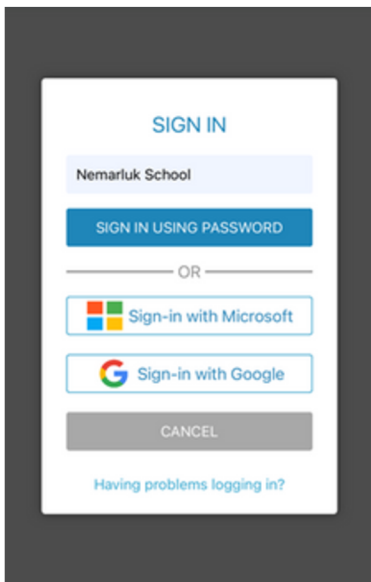

SIGNING INTO XUNO FAMILY APP & FAMILY PORTAL

Parents/Carers can access XUNO Family via the web or the application is available for download on the Google play or the App store.

To receive a XUNO welcome email, please give the front office a call on 8985 0400 or send an email to admin.nemarluk@education.nt.gov.au

You will receive your welcome email from emails@xuno.com.au. This email will include the XUNO portal link, your username and a reset your password link.

Reset your password and login via the XUNO Family app or the provided portal link.

WELCOME EMAIL EXAMPLE

Hi NAME,

Welcome to XUNO at Nemarluk School. This introductory email will help you to setup your account and sign-in.

XUNO keeps your team on the same page and your parents happy with a host of features designed around communication, helping students progress, and building informative student profiles.

These are your login details:

Portal: <https://nemarluk.xuno.com.au>

Username: USERNAME

Password: [Click Here](#)

If you have any problems or questions please don't hesitate to contact Nemarluk School on 8985 0400.

Thanks!

Nemarluk School

WHAT DOES THE XUNO FAMILY APP LOOK LIKE FOR YOU?

On the XUNO Family app, you will have access to the Upcoming Events Calendar, News and Announcements and the Contactless Kiosk feature, making signing in and out much easier. We are currently working towards enabling and using all available features on the app in the future.

The image displays three screenshots of the XUNO Family app interface. The top screenshot shows the 'Contactless Kiosk' screen with a QR code scanner, a 'Sign in / Sign out' toggle, and a 'Generate QR Code' button. The middle screenshot shows the 'Dashboard' screen with a welcome message, a sidebar menu, and a calendar view. The bottom screenshot shows the 'News' screen with a list of news items, including a newsletter and school holidays announcement.

Contactless Kiosk Screen:
