

First: About us

Linwood and Kathi Bridges (married 30 years) have 4 children, 1 granddaughter, and 2 dogs. (Add the rest of the about us info)

Why choose us over the competition?

We are a local Maine Family run business that strives to give you great personal attention, and we maintain a very high expectation of ourselves and take pride in the quality of our work.

We won't give you a lowball, over the phone ballpark price to lure you in.

We are happy to come out to inspect your concrete and give you an exact quote on the spot after we discuss with you what options are available and make sense for your project.

We itemize everything so you can see what you are getting.

We will be honest with you even if it means we don't do business together.

We are the only certified Penntek Industrial Coatings installer in Maine

What does that mean for you? Keep reading...

We only use only Penntek Coatings certified products for a reason.

Penntek Industrial Coating is located in Lakeville Minnesota is is also a family run business that has decades in intallations and is a leading industry manufacturer of concrete coatings materials. All manufacturing and testing are done in house with strict quality control measures and innovation that is second to none. They also have the best dealer support with constant updates and new innovative materials that are being tested everyday.

Better products, better results, better for you!
