Systems and Desktop Computing Administrator

GFA WORLD

Job Information

Position Type: **Part-Time; in-office is preferable, but remote would be considered.**
Work Experience: **2+ Years**

Job Description

GFA World is seeking an experienced Systems and Desktop Computing Administrator with a heart for transforming the lives of the impoverished and hurting through Jesus Christ. As a System Administrator with GFA, at our headquarters in Stony Creek Ontario, you will design and maintain server, storage, and network systems that are critical to ministry operations. This is a senior-level position in which you will be the chief technical expert at the ministry. In this role, you will both initiate and perform system and desktop computing administration tasks, under the oversight of ministry leaders. This is an opportunity to let God put your talents and experience to use in a Christ-focused ministry with an enormous eternal impact.

Qualifications:

- Has a personal relationship with Jesus Christ
- **Education**: BA/BS in related field. Equivalent education, experience, training, and certification may be substituted for education.
- **Experience**: At least two years of professional experience working in the network administration, system administration, desktop computing administration fields.
