or call our Testing Line: **720-850-7489**

Holistically helping individuals build  
healthier lives from the inside out.

The Empowerment Program believes that lasting change is the result of incremental action. We work with our participants on their journey to living a healthier life.

Through our programming, we help remove barriers to **HEALTH**, **HOUSING**, **EMPLOYMENT**, and **EDUCATION**, so our participants can take the steps they need to achieve their goals.

## HEALTH

We are a licensed mental health and drug treatment program providing trauma-informed and gender-responsive services. We believe that participants benefit most from a holistic approach, where many types of treatments are available to meet individual needs. We provide groups, brief care management, HIV testing, education and care, AcuDetox/ Acupuncture, and more.

## HOUSING

We know that securing housing can be a barrier to living a safe and healthy life. Along with community partners, we provide a continuum of care and improve access to housing options in the area for our participants and the greater Denver Metro Area community. Go to our website to find links to agencies that are a part of Denver's housing programs.

## EMPLOYMENT

We work together with community partners to provide vocational support services and individualized job placement, as our participants navigate the employment process. We work with individuals who are recently released from incarceration or in a half-way house, and provide re-entry services to people who are about to be released from a correctional facility.

## EDUCATION

We provide a variety of in-person and virtual group classes that cover trauma, substance use, sexual health, mental wellness, physical wellness, art, and more. We work with our participants to develop a plan to help them reach their goals along their individual journey. Our group classes are updated monthly, so visit our website for the most current calendar.

To start the enrollment process, go to the **GET STARTED** page on our website and fill-out the Pre-Intake Form or Call **720-850-7500**
