Overview

Divide into teams and see who wins!

How to Play

1. Alternate turns throwing bags with the opposing team. One team throws a bag, then the other team throws, and so on and so forth.
2. Your feet may not go past the front edge of the board.
3. A tossed bag may not touch the ground. If it hits the ground and bounces up on the board, remove it before any other bags are thrown.
4. If a bag is hanging off the board and touching the ground, remove it before any other bags are thrown.
5. Once all 8 bags have been tossed, add up the score. 1 point per bag fully on the board, 3 points per bag that made it through the hole.
6. Whoever earns the most points in a round throws first in the next round.
7. The first team to reach 21 points wins!
