

Giant Tumbling Blocks

Includes:

-crate

-60 blocks

Questions? Call/text CJ at 949-891-4822

Overview

Stack the tower as high as it goes!

How to Play

1. Remove the blocks from the crate and flip the crate over. The flat portion of the crate will serve as your playing area.
2. Create a tower with the blocks by placing 3 at a time, with each row facing perpendicular to the preceding row.
3. Once the tower is assembled, players alternate removing a single block using one hand from the tower from anywhere below the highest completed story.
4. Once a block is removed, it must be placed immediately on top of the tower.
5. Game is over when the tower falls!

Safety Info

- ☐ Blocks may fall at any time, so be aware and keep the area clear.
- ☐ Do not throw blocks at others.
- ☐ Do not submerge blocks under water.
- ☐ Watch for uneven ground, wet surfaces, wind, and nearby obstacles during play.
- ☐ In the event of poor weather, please move the game indoors or under appropriate cover.
- ☐ Keep the play area tidy and return the blocks and crate after the event.
