The month of March has been truly amazing. Most of the month has been really warm. I mean in the 80's. Summer is right around the corner, and the church family is already looking forward to the mission teams. Speaking of mission teams, our first mission team of the year has come and gone. We were able to accomplish so much! New steps, and a new porch and ramp were put on the East building. Some ground work was completed at Journey Church.

This team was also able to spend some time with the kids during their spring break that brought some amazing results. As many of you know, we have tried many times to bring the two communities together. Every attempt has been met with some form of opposition, and in some cases, painful consequences. But through the Creator's divine, sovereign plan, while the students from Kingwood were playing with the kids down at the Miller center, **10 or so of the kids from the East location came down to join in the fun, right in the middle of the Miller community.** It was truly amazing and did my heart so much good to see kids playing and having fun together. The Elders in the Miller center were excited to have them come down and welcomed the kids with open arms. We do not know when and if it will happen again, but we will continue to pray for this open door and look forward to it happening again. I am praising God for what He is doing in these two communities.

Speaking of mission teams, in less than a month, another team from Texas will be on its way here and will be making some major repairs to Journey Church. I am looking forward to their visit and the work that will be accomplished. Then, in June, the craziness

begins. **I would like you all to be praying now for those teams.** Satan has already begun working to make things challenging for the teams and leaders. We have already had one team drop out and have had some of the teams shrink in size. There are a couple of other things I would like you all to be praying about in regards to the summer schedule. First, this will be the first summer since 2018 we have had all weeks

filled. Praise the Lord! However, this schedule brings added stress and responsibility to our team. Second, both we and the McClures have had other responsibilities added this summer that will also require our attention. These 2 things combined will make this summer real “unique”.

I want to thank all those who helped purchase the gear needed for the SAR (Search and Rescue) certification. I will be

presenting my pack for inspection on April 7th. There are just a few more things on the list that are recommended but not required. Depending how my inspection goes, we hope to get Michele’s bag taken care of not long after. **Please pray for Michele right now.** She has been having pain in her foot that has made it hard to get around and be as active as she is used to being. With this added to the normal things involved with our aging and our current situation, life has become a real challenge for her as of late.
