- **Accommodation as per itinerary**
- **Visits mentioned in the itinerary on a regular service basis**
- **English-speaking guide**
- **Park entrance fees**
- **5 breakfasts**
- **6 lunches / 6 dinners**

DAY 1 NAIROBI – AMBOSELI

Arrival at Nairobi Airport. Welcome and transfer by our Travel Viajes Group local representative. Departure to Amboseli via Namanga / Emali. Lunch. Amboseli National Park is located on the border between Kenya and Tanzania, covering approximately 400 square kilometers and offering breathtaking views of the snow-capped Mount Kilimanjaro. Lake Kioko, located in the center of the park, often dries up completely during the dry season. The remaining land was named “Amboseli” by the Maasai tribe. In this park, you will have the opportunity to learn about Maasai culture by visiting one of their villages. Afternoon safari in the national park. Return transfer to the lodge. Dinner and overnight stay.

DAY 2 AMBOSELI – NAMANGA – ARUSHA – TARANGIRE

Breakfast. Morning departure to Namanga, located on the Kenya–Tanzania border. Border formalities, vehicle change, and continuation to Arusha. Departure at 12:00 hrs. from Arusha to begin the safari in Tanzania. Arrival at Tarangire National Park for lunch. Afternoon safari. Tarangire National Park has one of the highest elephant population densities in Tanzania. Its majestic baobabs and acacia trees make it a unique and special place. The park is named after the Tarangire River. During the annual dry season (August to October), the park attracts one of the largest concentrations of wildlife, including large herds of zebras, wildebeests, giraffes, elands, warthogs, antelopes, and elephants. Species such as kudu and oryx can also be easily spotted. Lions, leopards, and cheetahs may be seen less frequently. During this season, the river becomes the only permanent water source and an ideal refuge for animals. Return transfer to the lodge. Dinner and overnight stay.

DAY 3 TARANGIRE – SERENGETI

Breakfast. Morning departure to Serengeti National Park, crossing the Ngorongoro Crater Conservation Area. Lunch. Continuation to Serengeti National Park. Afternoon route safari in Serengeti. Dinner and overnight stay.

DAY 4 SERENGETI

Early departure for a full-day safari. Serengeti National Park is located on a plateau of the Ngorongoro Highlands. The name “Serengeti” means “Endless Plain” in the Maasai language. The park’s climate, vegetation, and wildlife have remained largely unchanged for millions of years. It is also believed to be the place where early humans first appeared in the Olduvai Gorge about two million years ago. Between July and September, animals are found in the northern part of the park and in the adjacent Maasai Mara in Kenya, where they seek refuge during the dry season. By mid-September, they migrate south, reaching the short-grass plains around the Gol Mountains and Hill Nabbi by December. Those that survive the long migration give birth in January and February before continuing the search for water and greener pastures in May. Lunch break and continuation of the safari, with the chance to see abundant mammals such as warthogs, leopards, cheetahs, black rhinoceroses, hippos, giraffes, buffaloes, topis, cobs, elands, sitatungas, bushbucks, oryx, mountain reedbucks, numerous rodent species, golden jackals, striped jackals, Grant’s gazelles, seven species of mongoose, two species of otter, bush pigs, and seven different primate species. Return transfer to the lodge. Dinner and overnight stay.

DAY 5 SERENGETI – KARATU

Breakfast. Sunrise departure for another safari in Serengeti until lunchtime, which will be a picnic. After lunch, departure to Karatu, a town near the Ngorongoro Crater Conservation Area. Arrival at the lodge. Dinner and overnight stay.

DAY 6 KARATU – NGORONGORO CRATER – KARATU

Breakfast. Departure to the Ngorongoro Crater Conservation Area for a safari. This area is home to the largest herds of ungulates in the world, including wildebeests, plains zebras, Thomson's gazelles, and Grant's gazelles, as well as predators such as lions, spotted hyenas, leopards, and cheetahs, and some endangered rhinoceroses. Over 400 bird species can also be found, including flamingos, hornbills, and ostriches. The Ngorongoro Crater is located within the conservation area and contains an immense concentration of wildlife within its 20-kilometer diameter, along with nine volcanoes, offering incredible scenic views. Picnic lunch. Afternoon return transfer to the lodge. Dinner and overnight stay.

DAY 7 KARATU – ARUSHA

Breakfast. At the indicated time, departure to Arusha. Midday arrival at a centrally located hotel in Arusha (not included). Transfer to the airport for the return flight to your city of origin.

END OF SERVICES.

TERMS AND CONDITIONS

Prices are indicated in USD and payable in local currency at the exchange rate of the day. The itinerary may be modified due to force majeure circumstances beyond our control, such as strikes, work stoppages, roadblocks, airline delays, etc. Likewise, the destination operator may change or modify the order of the itinerary for better operational purposes. As these changes are not the responsibility of Travel Viajes Group, they will not be refundable to the client.

It is the passenger's responsibility to obtain the passports or migration documents required by the authorities of the United Mexican States and the destination or transit countries, such as visas, health permits, notarized permits for minors traveling alone or with a guardian, etc. Your passport must be valid for at least six (6) months after the end date of the trip.

Minors traveling without their parents must complete the SAM form. The prices indicated in this document are for informational purposes only and must be confirmed at the time of booking, as they are subject to change without prior notice.

The trip is subject to any changes, provisions, and/or restrictions issued by international governments due to the COVID-19 pandemic. In the event the trip is canceled, a travel voucher will be issued to be used on a different date. This voucher is non-refundable and non-transferable. Travel and Fly Operadora S.A. de C.V. acts solely as an intermediary between service providers and the client; therefore, it is not responsible for cancellations, flight schedule changes, or domestic flight connections related to such changes if they were not directly booked through the agency.

Acceptance of this itinerary implies compliance with the full program. The order of the itinerary may change without altering its content. The presented itinerary is generic and may change depending on the destination operator's operations. Optional excursions may take place on a different day than originally proposed. We reserve the right to adjust prices at any time due to possible fuel increases applied by airlines, transportation companies, or destination service providers. Any payment made to guarantee the reservation is non-refundable in case of cancellation by the client.

No refunds or cancellations are allowed. Name changes incur a penalty of USD 250 + VAT and may only be made before airline ticket issuance. Once issued, the airline ticket is non-refundable, non-cancelable, non-transferable, and does not allow changes. Please consult directly with your travel advisor before final payment of your package. Travel and Fly Operadora S.A. de C.V. is not responsible if the passenger is unable to travel on the scheduled dates. As this is a group departure, in case of cancellation by the client at any time, a 100% cancellation fee will apply.
