

6TH CLASS

2024

This year we had a lot of fun and did many activities such as... our school trip to Tayto Park. We went on a lot of thrilling rides! This was our classes favourite school trip out of all the years! We also went to Hugh Lane Art Gallery and tried sketching and made pop up house out of paper. Our class went on a walking tour about the history of Dublin and the Easter Rising. We learned a lot of interesting facts. Our class was planning to go to the Ark to learn about women's rights but then out of nowhere it snowed so we postponed it to the next week . When we did go we had lots of fun. This year we also prepared to run in Santry Stadium. All of the days that we were preparing to run our last 2km equalled to a marathon. We went to the Botanic Gardens to learn about plants.

This year the 6th classes started having a split to help us prepare for secondary school. The split is when the two 6th classes mix into 3 different classes and learn maths and English and some other subjects.

This year as one of our projects we had to think of a JEP idea. We decided that Snoods were going to be the product we sold this year .They came in black and green and were sold for 5 euro.

We have been practicing for graduation for around a month. We will be singing 2 songs one of them being 'Lean On Me' and the other being Never Gonna Give You Up. We will also be having a symbol ceremony, which will be people bringing up an object and another person reading out the thing that it symbolises.

Some of the pupils have been working on paintings for the graduation. This has been a wonderful year with some great memories made that we will never forget. We have loved our 8 years of our primary school journey that has been a big part of our life.
