

Daphne

# Daphne

Daphne came to the sanctuary from the New Forest in April 2024. She had been unhappy in the herd she lived with, was overeating and had put on weight.

She was still quite stressed when she arrived, but is now much happier.

Gentle and sweet natured, she has a small white mark on the left of her back.

Year of birth:  
**2006**

Favourite food:
