

Club Prophet

Unlocking Excellence in Golf

For over three decades, Club Prophet has led the development of technology solutions for the golf industry. Today we support more than 1,200 courses worldwide with our golf management software and offer the highest quality support and training to ensure the success of our customers.

We are proud to continue our mission of advancing the golf industry forward and to maintain our legacy of serving as advocates and voices for golf business operators.

Driving success

Key features

Point of Sale (POS) System

Our intuitive POS system facilitates quick and efficient transactions for pro shops, food and beverage, and more. With robust inventory management capabilities, tracking stock levels and sales trends becomes effortless.

Tee Time Booking

Simplify tee time reservations for members and guests with our flexible booking system. From online reservations to integrated tee sheet management, ensure smooth scheduling and maximize course utilization.

Member Management

Cultivate lasting relationships with members through personalized experiences. Our software enables efficient member communication, billing automation, and dynamic member profiles to enhance engagement and retention.

Integrated Marketing Tools

Drive revenue and promote events with targeted marketing campaigns. From email newsletters to loyalty programs, leverage our integrated marketing tools to attract new golfers and keep members engaged.

Driving success

Key features

Comprehensive Reporting

Gain valuable insights into your operations with detailed reporting and analytics. Track performance metrics, analyze trends, and make informed decisions to optimize your golf club's performance.

Mobile Accessibility

Stay connected and manage your golf club on-the-go with our mobile-optimized solutions. From food and beverage, point-of-sale, inventory, and more – your staff can manage operations from the convenience of their pocket.

Embedded Payments

Save time and resources with seamless and secure embedded payment processing built-in to your golf management system. Reduce the need for manual reconciliation and admin tasks, access real-time data and reporting, and eliminate the need for separate payment terminals or third-party systems. All while enjoying some of the best processing rates available.

Why choose Club Prophet?

Industry Expertise: With over 30 years of experience, we understand the complexities of golf club management and continually innovate to meet evolving industry demands.
