

# HVAC Multi-Family Installer

**Company:** AO Cooling & Heating LLC

**Location:** Rosenberg / Greater Houston Area

**Job Type:** Full-Time

**Compensation:** Competitive Pay (Hourly Based on Experience)

**Schedule:** Monday–Friday | Some Weekends and Travel

## **Position Overview**

This position also requires system start-up, performance verification, and troubleshooting to ensure every system meets manufacturer specifications and company standards. Seeking an experienced HVAC Multi-Family Installer skilled in fur-down, wall/stud-mounted air handlers, PTAC/VTAC, mini-split systems, heat pumps, and A/C condensers. Responsibilities include system start-up, performance verification, and troubleshooting to meet specifications and standards. Military Veteran or Bilingual English/Spanish a plus.

## **Key Responsibilities**

### **HVAC Installation**

- Install HVAC systems in multi-family properties (apartments, condos, hotels).
- Install/replace wall/stud-mounted, closet, and fur-down air handlers, PTAC/VTAC, mini-split, heat pump, and A/C condenser units.
- Perform fur-down framing modifications, install line sets, drain lines, electrical whip, and low-voltage wiring.
- Ensure all installations meet code, manufacturer specs, and company standards.

### **System Start-Up & Commissioning**

- Perform complete system start-ups per manufacturer guidelines.
- Verify proper operation of airflow, refrigerant charge, and electrical components.
- Measure and record system performance.
- Properly commission mini-splits (vacuum, weigh-in charge) and PTAC/VTAC units (function check, airflow verification).
- Document all startup data and job completion.

## **Minimum Requirements**

- 0-2 years HVAC installation experience (multi-family preferred)
- Able to perform system start-ups and troubleshooting
- Proficient in reading manuals and wiring diagrams
- Valid driver's license and clean driving record
- Must own tools
- EPA Universal & TDLR Registered Technician Card
- **Preferred Qualifications**
- EPA Certification (required or willing to obtain)
- Commissioning and airflow measurement experience
- Familiarity with digital gauges/manifolds
- Experience in high-volume, multi-unit installations

**How to Apply** Submit your resume or contact AO Cooling & Heating LLC, [service@aocoolingandheating.com](mailto:service@aocoolingandheating.com) or 713-705-6787, to learn more about joining our team as an HVAC Multi-Family Installer.
