### **Program/Membership Highlights**

I have seen success in our Lego Workshops and are finding new ways to grow our Family Paint and Sip. I am currently working on starting up our Achievers program and am excited to continue to grow our youth development programs.

We have seen a continued growth in our SACC program even with the school year coming to an end, we currently have 23 youth registered. We have received a lot of positive feedback from SACC parents and have seen an increase of enrollment through recommendations of our current SACC families.

Above are pictures from our Water Egg Hunt which was a success. All available registrations filled within the first hour of me sending out an Engage. We held 5 sessions with a total of 140 registrations and 118 people on the wait list even after adding the additional 5<sup>th</sup> session.

Above is pictures from Earth Day, Gina Stravic representing the Somerville Environmental Commission came to distribute trees along with planted trees at the park across the street with SACC. She took them through the steps of digging the holes, planting the trees, and watering them. She also talked to them about the benefits that trees have on the environment.

We also make sure to incorporate the importance and values of our community and giving back into our child care programs. This month we brought in food to donate to our Little Free Pantry and asked the youth to help stock the pantry. This allowed the youth to give back and help members of our community.

We put a focus on implanting more STEAM and creative activities to do during aftercare. The youth participated in various activities that included painting pet rocks and creating colorful volcanoes.

### **Community Partnerships**

**Somerville PD-** It has been a great success to watch our youth create positive and fun memories with our local police department. We are happy that they continue to join us in after care on the first Friday of each month to continue building those positive relationships.

**RVCC:** Have currently been working with college students on setting them up with Service Learning Projects which they have now completed. We have one group of nursing students who are creating a kids yoga manual and another student who volunteered hours with SACC and lesson planning with Alex and I.
