Basic Test Plot Scale Picker Features

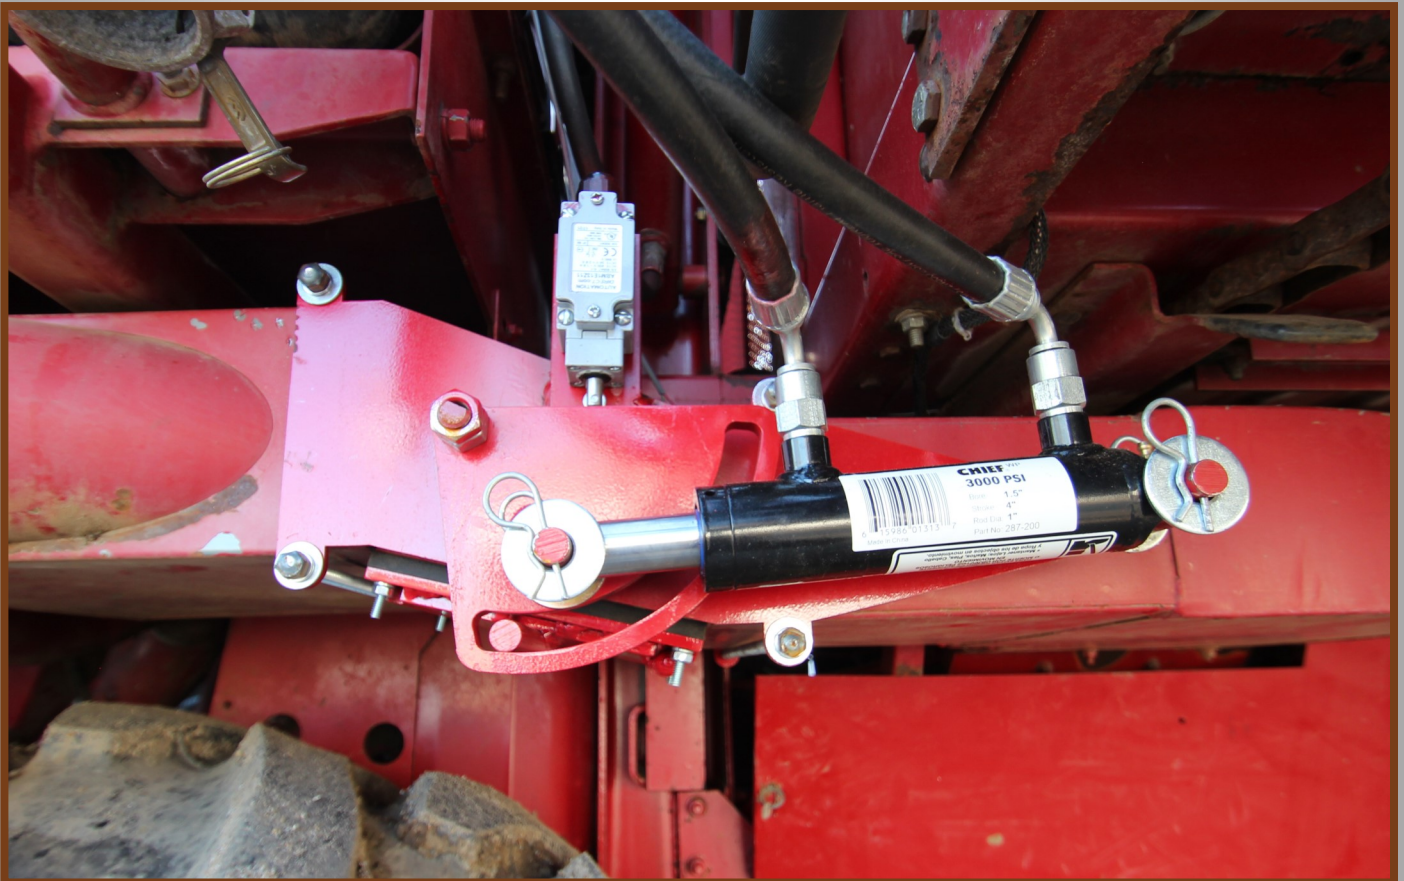

(features vary by make & model)

Lipsey Company
Indianola, MS
662-569-3341/662-207-2600

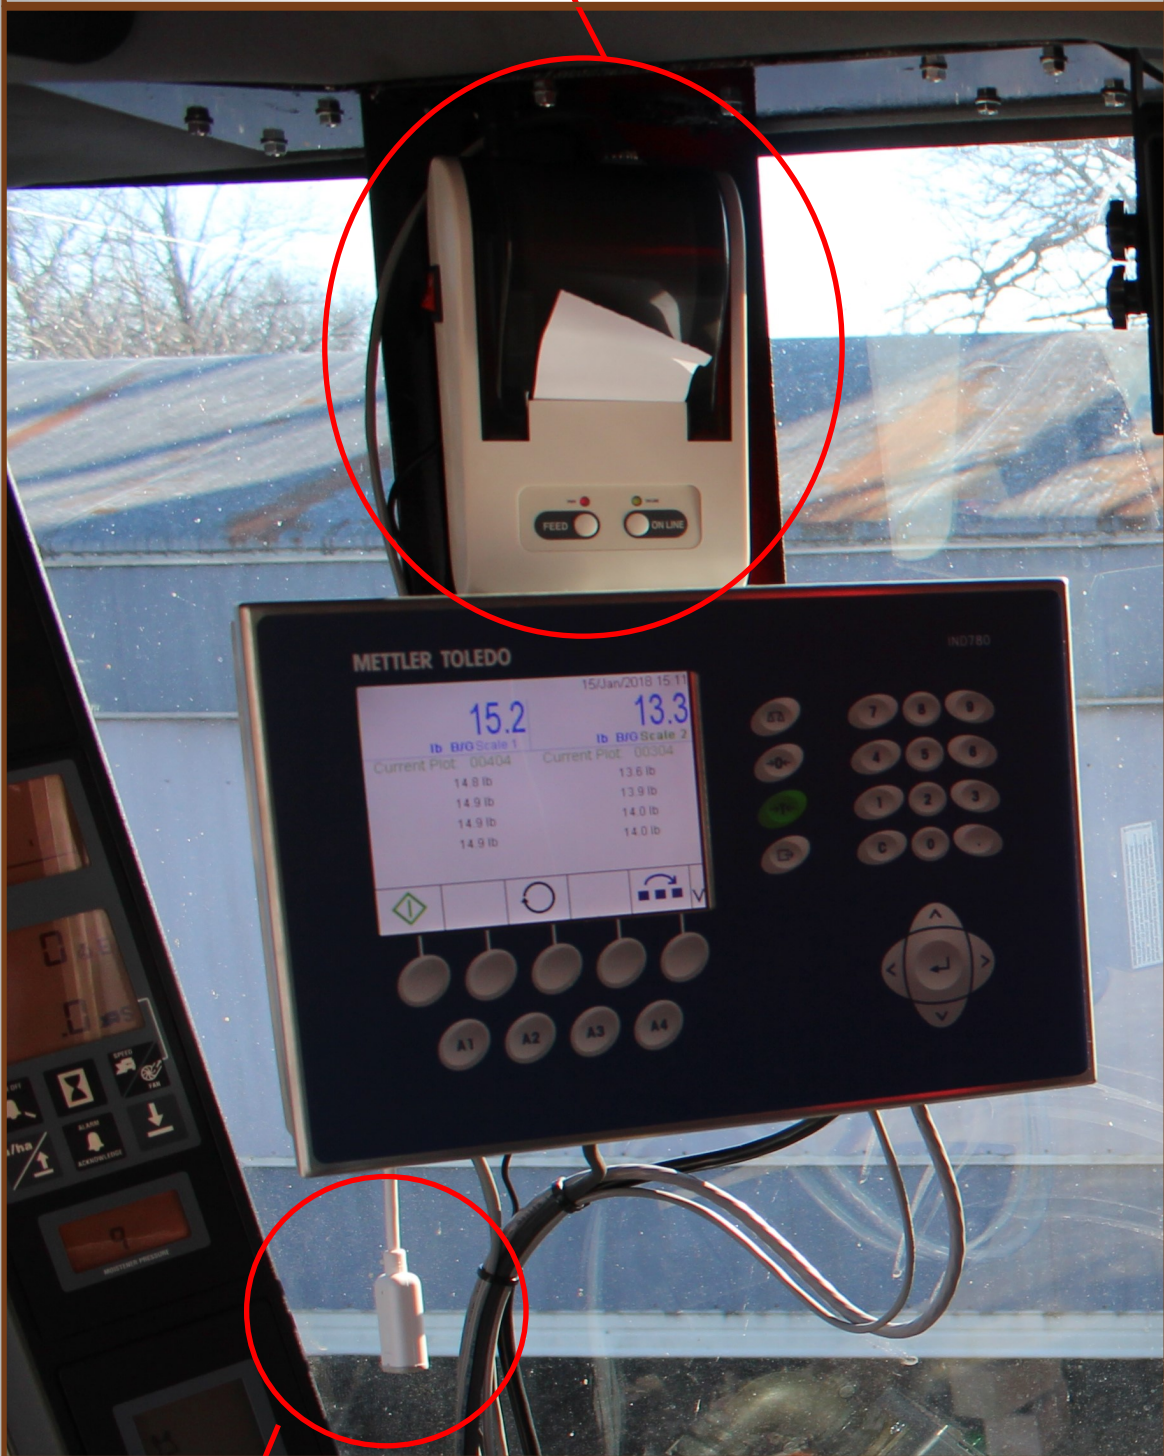

Specially designed weigh baskets with hydraulic sliding doors mount in the top of the picker basket to catch and weigh plots

The custom designed air diversion system moves air away from the weigh baskets while weighing.

Optional paper printer

Onboard USB flash drive access.

Internal or external.

Mettler Toledo IND780 Indicator

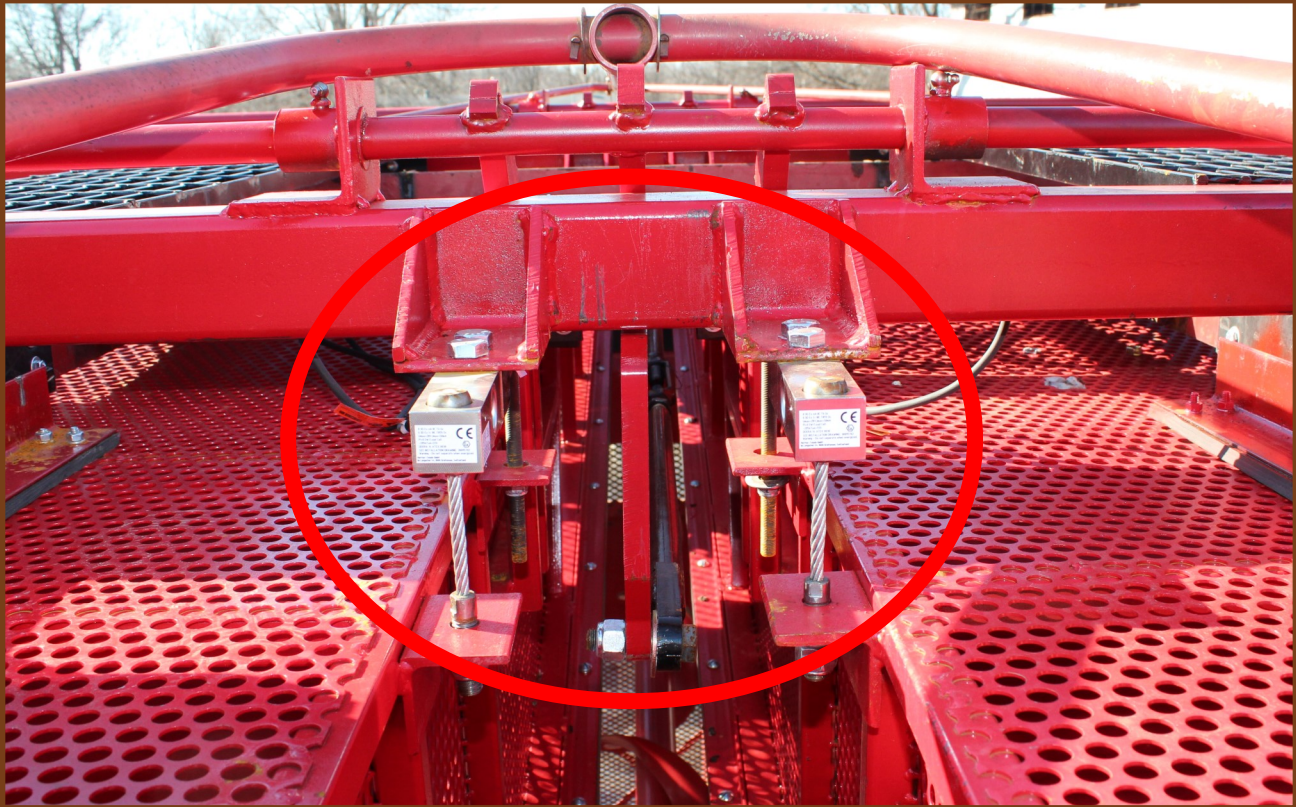

IND780

- Color display
- Fast
- Easy to use
- Harvest software designed for your specific application

In-cab control box is easily accessible.

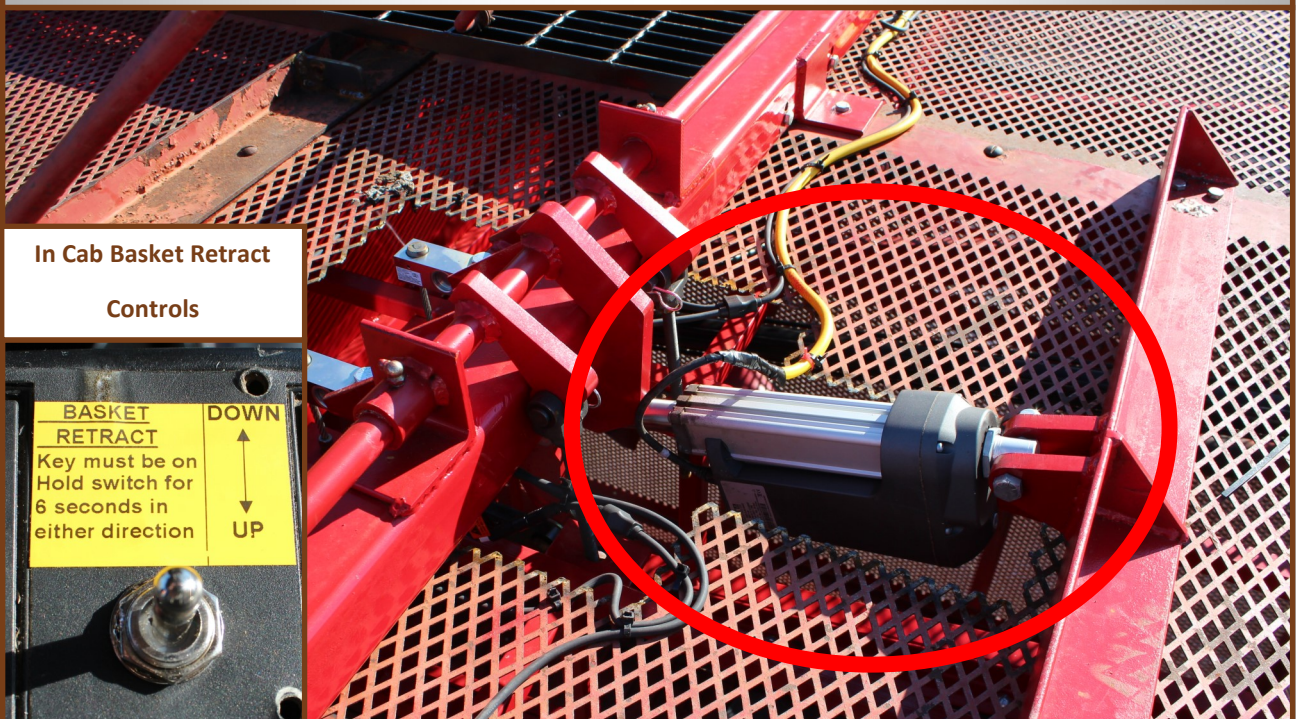

Shear beam load cells with heavy duty cable supports.

Heavy duty IP-66 electric linear actuator raises/lowers baskets.

When transporting, or driving distances, this helps prevent load cell damage.
