

M. SCHNEIDER ELECTRIC LLC

SHOCKINGLY GOOD SERVICE

A LOOK FOR EVERY SEASON.

Our permanent holiday lighting system is invisible by day and brilliant by night! Select from over 16 million colors or choose from hundreds of patterns to create the perfect lighting display for any occasion.

Our lighting track is custom-made and color-matched to your home, providing a seamless look that blends perfectly with your existing architecture.

Energy Efficient - Each LED uses around 0.1 watts of power at full brightness. This is incredibly low!

Control from your phone - all aspects of the lighting system can easily be operated within an iOS or Android app.

Customizable Patterns - Twinkles, chases, fades and many more. All customizable to any color palette.

Schedule - Have your lights turn on at sunset on your favorite holidays. Never worry about turning off your lights again.

Total Control Made Simple.

Celebright's simple-to-use app, featuring cloud connectivity, allows you to access your system from anywhere. Select from over 16 million colors to create your own custom display, or choose from hundreds of patterns for any occasion. Take advantage of the scheduling feature to plan your year in lights!

Our smart integration includes features that connect with Google Home and Amazon Alexa, giving you the ability to control light settings and adjust color schemes with simple voice commands.

"Alexa, turn on Celebright."

Hey Google

IFTTT

"Best product I ever bought. So nice that with the touch of a button, I can change my lights to whatever I want, from pot lights that stay on all night to Christmas lights and I also don't have to climb a ladder."
