

## WHAT WE INSTALL

# Acrylite®

Architectural acrylic

- ✓ Stays optically clear for decades
- ✓ UV-filtering across all 5 tints
- ✓ Color-stable, won't yellow
- ✓ Impact & weather resistant

## ALTERNATIVE

# Polycarbonate

PC sheet

- ✓ High impact strength
- Yellows under UV
- Scratches easily
- Loses clarity over years

## ALTERNATIVE

# Metal Roof

Aluminum / steel panel

- ✓ Durable & long-lasting
- Blocks 100% of daylight
- Radiates heat underneath
- Loud in PNW rain

## ALTERNATIVE

# Fiberglass

Glass-fiber composite

- Hazes & chalks over time
- Fibers bloom on surface
- ✓ Low cost up front
- Cleaning becomes harder

## ALTERNATIVE

# PVC

Vinyl panel

- Becomes brittle over time
- Color fades, surface chalks
- Low temperature tolerance
- Heat & cold causes warping
