PROJECT DETAILS

The Mini Peaks Legacy Project is a transformative investment in community sport across British Columbia. As a legacy of the FIFA World Cup 2026™, this partnership between the Province of B.C., viaSport BC, and Vancouver Whitecaps FC will install professional-quality mini-pitches in communities throughout the province. This project turns underused spaces into permanent, community-owned soccer facilities, supported by vibrant grassroots programming designed to serve thousands of participants for years to come.
