HEALING AND MEANINGFUL FAREWELL

Don't let an unexpected loss away from home put your family in the position of having to choose between a healing and meaningful service and the need to pay for unforeseen transportation expenses. Think about it...

If a loved one dies away from home, a family's first instinct will be to have the body cremated and shipped home for efficiency.

But don't mistake efficiency for effectiveness:

- Your family would never get to see their loved one's face again or say their goodbyes.
- Your family might be tempted to pass on other important elements of the funeral ceremony, intended to help them activate their support network, connect with other family members and friends, and receive the love and support they need during a difficult time.
- Your family may experience additional stress due to financial hardship you never intended them to have.
- And, some family members may require grief counseling or therapy to process the loss without the benefit of the full funeral experience.

You can have complete peace of mind with 100% guaranteed On the Go Protection. Include this valuable protection in your prearranged funeral plan or purchase the plan individually by contacting your funeral prearrangement specialist.
