See Yourself at Pallotti!

St. Vincent Pallotti High School offers a broad and challenging curriculum in a small school environment. Pallotti students receive a college preparatory education that is infused with the gospel and are taught by a caring and dedicated faculty. The curriculum is designed to meet the needs of a wide range of students with diverse interests, learning styles, and abilities. In addition to our strong college prep curriculum, Pallotti offers specialized programs in engineering, science, and the visual and performing arts. Pallotti also has one of the longest established programs in the area for students with learning differences, The Stephen J. Edmonds Learning Center. Our goal is not only to give our students a great education that will help them excel in college and beyond, but to also give them an education that is integrated with the spiritual and moral truths that will guide them through their whole lives.
