Effective 08/11/2025, we will be transitioning to a new online payment processing vendor for managing student lunch accounts (the food service provider will continue to be Zest Food Services). This change is being made to provide a more user-friendly experience and improved service.

The myschoolaccount.com portal will no longer be active as we have switched to SchoolBitez.

What You Need to Know:

- All existing balances will be safely transferred to the new system. You will not lose any funds currently in your child's lunch account.

- Action required: You will need to create a new account with our new vendor to access and manage your child's lunch account moving forward.

Steps to Create Your New Account:

1. Visit zest.schoolbitez.com

2. Click on "Create Account" and follow the prompts.

3. Enter the required information, including your child's student ID number.

4. Link your student(s) to your account.

5. Add funds and set up optional automatic payments or low balance alerts.

There are 3 methods of payment to make deposits for the students' debit account,

1) ACH payments requiring your checking account number and routing number (3.5%)

2) Major Credit Card or Debit Card (3.8%)

3) A check made payable to Zest Food Service or cash payments (No Fee)

All purchases must be made through the cafeteria plan, using the student ID.

As payments are made, each student's account will be updated so that account balance information and payments will be readily available.

In addition to Student ID payments, Zest accepts; Cash and new this year, Credit Card payments with our secure Square Tap & Swap to pay system.
