**NEW!**

# STRUTZ

Non-Contact  
Optical  
Registration  
Vision System  
for the Strutz  
Chainless  
CLS-175  
and CLS-200  
Decorators

The revolutionary Strutz high production body and shoulder decorating machines now feature:

- Optical registration camera with servo control eliminates contact with glass beverage bottles.
- Easy control of seam angular position or print placement on bottles with operator interface.
- Detection by using existing lugs on bottles or with a quality Plant Symbol or Mark.
- Up to 200 pieces/minute.
- CLS-175 decorates body & shoulder of large bottles up to 1.25 liter.
- CLS-200 machine provides optimum production for body & shoulder decorating typical 12 oz. bottles at speeds of up to 200 BPM.

## Performance Proven Worldwide

**CHAINLESS  
CLS decorating machine**

# President's Message

Dear Fellow Member,

## Change is in the air at SGCDpro—and it's driving us forward.

I'm thrilled to introduce a bold new chapter in how we connect and communicate: the **Society's first completely digital and interactive membership directory**. This year, we're turning the page—literally—by leaving behind the printed format and embracing a smarter, faster, and more dynamic digital experience.

Change brings opportunity, and this upgrade is full of it.

Right from the start, you'll notice a sleek, new cover showcasing the logos of our **corporate members**. Each logo is interactive—just click to visit their websites and start connecting instantly. It's networking reimagined for today.

Inside, **navigation is easier than ever**. The table of contents and advertiser index are now fully clickable. Whether you're looking for Decorators, Equipment Suppliers, or any other section, you're just one click away.

Our advertisers—longtime partners in our mission—also get a fresh new spotlight. Click on their ads or listings to explore what they offer. Supporting them supports our entire community.

This shift to digital is about more than convenience—it's about growing with the times and enhancing the value we offer to members like you. Your thoughts matter, and we

encourage you to share your feedback with me, our Executive Director, or any Board member.

And speaking of change...

Make sure you mark your calendars for **Deco '26 in Pittsburgh**, coming **April 13–15, 2026. Monday-Wednesday**—a significant change based on your input!

For the first time, we're moving the event to weekdays, opening the door to stronger attendance, more efficient networking, and a vibrant energy we're already excited to see come to life. **Deco '26 is set to be one of our most impactful gatherings yet.**

If you know someone who could benefit from the SGCDpro experience, pass along their name—we'd be happy to extend a personal invitation. Thank you for embracing this season of change with us. Together, we're shaping a stronger, more connected future for SGCDpro.

Warm regards,

**Paul Bolduc**

President, 2025–26
