 - Origin
 - How are they used today
 - How are they used at Faith Teams
- 2 When to use them
 - Giving
 - Events
 - Website
- 3 Concerns
 - Phishing
 - Changes to URLs
 - Adoption

Origin

1990s

Japan's Denso (Toyota) to track automobile parts during the assembly process. QR stands for “quick response”

Modern Use

Marketing, Inventory, check-in, payment/giving

At Faith Teams

Links to Community, Giving, Events, Groups and other areas in Faith Teams. Codes are generated for each church specific URL.

Let's See It Live!

Security

Phishing Attacks – Scammers can replace a legitimate QR code with one that redirects donors to a fraudulent or inappropriate website

Malware & Data Theft – Some malicious QR codes can install malware on a donor's device, potentially stealing personal or financial information.

Redirection to Fake Payment Pages – A fraudulent QR code can lead to a page that looks identical to the church's donation site but steals payment details.

Tampering with Physical QR Codes – A scammer might print their own QR code sticker and place it over the legitimate one in church materials.

How to Promote Community

Use Your Community QR Code

Your QR Code is linked to your site.

<https://newchurch.faithtteams.com>

Mobile Download Page

Share this URL with your congregation. It provides them with links to Community Mobile and explains how they can use it to interact with your church.
